

Burglary @ Christmas

By Christopher Langman

Take some precautions to protect your property and valuables this Christmas:

If you are going out in the evening leave some **lights** and a **radio** on to make it look as though someone is at home. If you are going away for a few days use a **timer**.

As at any other time of the year, make sure all your **doors and windows** are secure, even when you are at home. Check everything is locked before you go to bed.

If you have a **burglar alarm**, make sure you set it when you go out and when you go to bed.

Before wrapping expensive Christmas presents write down the **model and serial number**.

Don't leave car keys, ID cards or **valuables near windows, doors or letterboxes**, where burglars can reach through to steal them.

If a burglar can see presents under your Christmas tree, they may want to steal them. Wait till the **morning of Christmas Day** to put your **presents under the tree**.

Lock your garden **gates** and **side entrances**. Don't leave tools lying around in the garden which could be used to break into your home.

Mark your property and valuables with a forensic security product such as SmartWater or special marker pen.
