Narrative Report

Message From Martin Jelley the Chief Constable of Warwickshire Police

“We have been policing Warwickshire for more than 160 years now and 2019/2020 has certainly been one which will go down as a landmark in our history.

During the last 12 months we have been working hard to transform the force as we have moved back to being a standalone organisation. This has taken huge effort from our workforce for which I am immensely grateful and proud.

We are now in a really strong place to respond to the challenges of modern day policing and ensure our residents and visitors receive an outstanding service.

We are now a workforce 2,000 strong, with 1,000 police officers and a further 1,000 members of police staff, PCSOs and Special Constables and we will seek to grow this further in coming years.

Throughout the last year our proactive and reactive policing response has continued to result in some excellent outcomes meaning that we have continued to bring to life our enduring force vision of **‘Protecting People from Harm’**. We have seen reductions in crime in areas such as burglary, vehicle crime and theft and built on our strong partnership-working ethos through the likes of our problem-solving initiatives and operations to tackle serious and organised crime.

The force has also been recognised by Her Majesty’s Inspectorate of Constabulary for the good work the force has made in reducing crime and tackling anti-social behaviour.

We have continued to develop our approaches that seek to ensure we become great at protecting the most vulnerable and at the heart of everything we do we have endeavoured to achieve our workforce promise of putting their health and well-being first.

I am pleased that towards the end of this financial year West Mercia Police settled their liabilities with the force and we can now move forward, ensuring our full focus can be on providing the best and most efficient services for our communities.

At a time when our efforts now find us needing to be focused on supporting the national strategy to address the COVID-19 health emergency, the importance of local visible policing, offering community reassurance has never been greater.

I would like to personally, on behalf of the force, thank our communities for their ongoing support throughout the last financial year.

We are a police force, working with partners, with incredible officers and staff who are committed and dedicated to ensuring we continue to protect people from harm in Warwickshire and will do so for many years ahead.”

Narrative Report

Introduction

This Statement of Accounts has been prepared in accordance with the requirements of the Chartered Institute of Public Finance and Accountancy (CIPFA). It aims to provide information in a clear and consistent way to outline the financial position of the PCC (and Warwickshire Police), and to provide assurances that the PCC has accounted for and spent public money appropriately, and that it is in a sound and secure financial position.

The style and format of the accounts complies with CIPFA standards and is similar to that of previous years. The structure of this narrative report is also set out below:

1. Strategy and Structure including an explanation of the PCC and Group
2. Governance and transitioning from the strategic alliance
3. Our workforce
4. Financial performance
5. Non-financial performance
6. Coronavirus (Covid-19) pandemic
7. Corporate risks and uncertainties
9. Conclusion and acknowledgements

1. Strategy & Structure

The Police and Crime Commissioner (PCC) and the Chief Constable are established as separate legal entities. The PCC for Warwickshire is elected every four years to secure the maintenance of an efficient and effective police force and to hold the Chief Constable to account for the exercise of his functions and those of the force. The Chief Constable has a statutory responsibility for the control, direction and delivery of operational policing in Warwickshire. These PCC and group accounts focus on the discrete activities which are the direct responsibility of the PCC including community safety and commissioning services for victims and witnesses of crime, as well as the 'PCC group' which includes all aspects of operational policing under the direction and control of the Chief Constable. The Chief Constable produces a separate set of accounts which explains how the resources provided by the PCC have been used to deliver the operational policing services across Warwickshire. The original net revenue budget for 2019/20 was £102.720m (including reserve usage), with £2.665m being under the direct control of the PCC, and the remainder under the direct control of the Chief Constable.

As the elected representative of the county's residents, this provides the PCC with a mandate to oversee and direct how crime and community safety is addressed in the county, in addition to setting the strategic priorities for Warwickshire Police to create a safer, more secure Warwickshire by holding the Chief Constable to account for the force's delivery of its operational policing and public protection responsibilities. The PCC is the custodian of the public finances available for Warwickshire Police and for the commissioning of services to address crime and its impact in the county. Philip Secombe was elected to the position of the Warwickshire PCC in May 2016, and developed his Police and Crime Plan covering the period up to 2021, which was developed following an extensive consultation process with the public and partners, and was launched in December 2016. This plan has been refreshed and updated over his term in office, to ensure that it remains up to date and reflects the ambitions of the public for policing in Warwickshire. The plan identifies 4 main themes – putting victims first, ensuring efficient and effective policing, protecting people from harm and preventing and

Narrative Report

reducing crime. Progress in achieving these four main aims is well-documented, although the ongoing accomplishment of these objectives will be through continued effective partnership working at all levels which includes working closely with Local Authorities and Community Safety Partnerships (CSPs) through to national and regional partnerships. The PCC also undertakes a national role as chair of the national emergency services collaboration working group, which is a sector led and government backed group to improve and accelerate the pace of collaboration between emergency services to achieve improved governance, effectiveness and efficiency. Warwickshire has a number of effective partnerships and is continuing to develop others, this approach delivers a number of benefits to local communities and also addresses the Home Secretary's national strategic policing requirement which is identified as:

- Terrorism;
- Serious and organised crime;
- Cyber security;
- Threats to public order that cannot be tackled by one force alone;
- Civil emergencies requiring an aggregate response; and
- Child sexual abuse.

2. Governance and transitioning from the Strategic Alliance

The PCC and Chief Constable are both responsible for ensuring their business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for. They have a duty to make arrangements to secure continuous improvement and value for money in the way functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In discharging this overall responsibility, the PCC and Chief Constable are responsible for putting in place proper arrangements for the governance of their affairs and facilitating the exercise of their governance functions, which includes ensuring a sound system of internal control is maintained through the year and that arrangements are in place for the management of risk. In exercising this responsibility, the PCC and Chief Constable have approved a joint corporate governance framework, which includes detailed finance and contract procedures and joint risk management processes. There is a requirement to formally review these governance arrangements annually, with reviews being undertaken in October 2019, when the first phase of services transitioned from the alliance with West Mercia and again in March 2020 to take effect in April 2020, as more services transitioned from the alliance. The framework is published on the PCC and force's website and the results of the review are contained in the Annual Governance Statement (AGS). The two reviews during 2019/20 have been undertaken to ensure that the governance framework adequately reflects the services and the transitional process that Warwickshire has been undertaking throughout 2019/20.

The AGS is published alongside the Accounts and provides a detailed explanation of the PCC's governance framework, and how his office have complied with that framework over the last twelve months in accordance with the seven principles outlined by CIPFA. This includes the governance issues in relation to the plans and the objectives set out in the Police and Crime Plan and how these will be achieved, detail on how he manages risk and also a comprehensive section in accordance with recent CIPFA guidance on the effect of the

Narrative Report

coronavirus pandemic particularly on service delivery and the related governance issues. A full copy of the Police and Crime Plan can be found on the PCC's website.

In October 2019, Warwickshire Police and the OPCC embarked on setting up a new Joint Audit and Standards Committee (JASC) for Warwickshire only, as the previous committee was also joint with their West Mercia counterparts. The Committee generally meets on a quarterly basis and receives various reports on performance monitoring, internal and external audit and general governance and financial issues. The Committee has agreed terms of reference which are reviewed annually and provide scrutiny and challenge to provide some assurance to the PCC and Chief Constable on these matters.

The Police and Crime Panel (PCP), composes of locally elected councillors and lay members, who hold the PCC to account through a process of scrutiny and review, which includes scrutinising the Police and Crime Plan, the annual budget and the precept. The panel meets formally in open session throughout the year, to undertake their role, in addition to a number of informal meetings to receive updates on police performance and the budget. Whilst establishing openness in the conduct of police business the intention is that the PCP supports the OPCC in the effective exercise of their functions. Further information on the role, responsibility and powers of the PCP can be found on the PCC's website. However, their role provides an important aspect of the local governance arrangements for policing across Warwickshire. More recently the JASC and PCP have agreed to work more closely together to provide increased support, scrutiny and assurance.

From April 2019 onwards, following prior agreement by both PCC's and Chief Constables, local policing services were withdrawn from the alliance arrangements and became fully under the command and control of the respective force. As a consequence the budgets and costs of this function were also de-pooled from this point. All other collaborated services did however remain within the alliance until the termination date, which was originally in October 2019. However, in line with the termination notice and the joint decision of both Force's PCCs and Chief Constables, the services listed below were separated from October 2019:

- Corporate Communications
- Operational Command Centre
- Leadership & Command – Relating to functions & capabilities
- PNSB
- Collision Investigation Unit (CIU)
- Strategic Vulnerability & Safeguarding
- MIU & SMCRU
- Specialist Operations
- Scenes of Crime Unit (SOCU)
- Force Intel, I24 & Automatic Number Plate Recognition (ANPR)
- Dedicated Source Unit (DSU)
- Task Force
- Dogs & Kennelling
- Safer Roads Partnership (SRP)

This enabled the continued process of smooth and safe transition out of the alliance for Warwickshire towards its new target operating model as a standalone force. This meant that from that point, most of the salaries and day to day running costs associated with these

Narrative Report

areas of business were charged directly to Warwickshire Police rather than being pooled and shared with West Mercia Police.

However, due to the scale and complexity of transitioning some service areas, the original termination date of October 2019 was seen as unachievable by Warwickshire for all remaining services, and at the request of Warwickshire PCC and Chief Constable, the Home Office issued a direction for an extended six month period of the alliance to enable the smooth transition of the remaining services and for the arrangements for any continuing areas of collaboration to be adequately established. This meant that by the end of March 2020, only four areas of services remained collaborated on with West Mercia - forensics, file storage, transactional and ICT services, and two separate collaboration agreements or s22 notices were signed on this basis. Warwickshire now operates as a standalone force in all other areas, and has either stood up the service within Warwickshire or has entered into or will be entering into new collaborations with other forces to deliver efficient and effective services to Warwickshire communities which continue to provide value for money.

Given the journey that Warwickshire was on as part of this transitional and transformational process, the vision, values and policing priorities were re-set in January 2019, and have been kept under review throughout 2019/20. Our vision and values are shown pictorially in diagram 1 which sets out how our ambition, values and code of ethics support our vision to protect people from harm.

Diagram 1.

Our vision and values

Diagram 2 shows the policing priorities for Warwickshire Police. This links in with the overall vision of protecting people from harm, but also refers to specific priorities regarding victims, service levels and the prevention of crime in achieving that vision. The policing priorities are set and led by a Chief Officer team across Warwickshire.

Diagram 2:

Narrative Report

Our priorities

During 2019/20, the governance arrangements became more complex with the ending of the alliance - some service areas sat within the alliance arrangements, whilst some services transitioned during the course of the year or at the end of the year and thus were operating under the control and governance arrangements of Warwickshire only from that point onwards. The Alliance Governance Group (AGG), which later became the Alliance Transitional Governance Group (ATGG) was the main mechanism for overseeing the governance of Alliance functions and services. The key document that sets out the arrangements that governed the alliance element of the business are established under the Police Act 1996 and is known as a section 22 collaboration agreement. This sets out how the Forces' finances will be managed on a day-to-day basis, including the financial arrangements for cost sharing. It also provided the process and financial arrangements for

Narrative Report

the termination of the alliance, which was triggered by the West Mercia PCC and Chief Constable in October 2018. This document can be found at: www.warwickshire.police.uk. Services that sat solely within Warwickshire during the course of the year were covered under the reviewed corporate governance framework and a revised meeting format for holding the Chief Constable to account.

To reflect the transient nature of some services during 2019/20 the joint corporate governance framework, including all the supporting regulations were reviewed in October 2019, the date at which the alliance was due to end, and at which point some services were stood up within Warwickshire, to create a joint set of governance arrangements that applied to the Warwickshire PCC and Chief Constable only. These documents were again approved as part of the normal annual review process in March 2020, to reflect the continuing transitioning of some services, and as new staff and officers were recruited into posts as services were stood up in Warwickshire.

3. Our workforce

Many staff worked to deliver the objectives of the alliance during 2019/20. Management of change processes were undertaken during the course of the year in services that were being transitioned, as staff moved to positions within either force and further additional recruitment processes were undertaken to fill vacant posts and stand up services in Warwickshire. However, Warwickshire staff and those still working in services within the collaboration agreement have been instrumental in the delivery of effective policing in Warwickshire throughout 2019/20. An analysis of staffing is shown at table 1.

The table below shows the gender breakdown of the workforce employed by Warwickshire police at the end of 2019/20 across the different sectors.

Table 1. Workforce Gender Analysis

	Male	Female	Total	Male %	Female %
Police Officers	687	340	1,027	66.89%	33.11%
Police Staff	346	540	886	39.05%	60.95%
Specials	75	15	90	83.33%	16.67%
PCSO's	42	52	94	44.68%	55.32%
Total	1,150	947	2,097	54.84%	45.16%

A Home Affairs Committee report highlighted the under representation of Black and Minority Ethnic (BAME) people in police forces in England and Wales. As a result of this report Warwickshire has been taking action to ensure that our force better represents the communities we police. The more recent Black Lives Matter campaign has again brought these issues to the fore and the need to reflect the diversity of our communities within the force remains a key focus for the Chief Constable and one which is fully supported by the PCC. 2019/20 has seen some significant increases in police officer numbers in Warwickshire, achieved mainly through the precept increase, but also through the national uplift programme and the Government commitment to recruit a further 20,000 officer nationally. The first uplift tranche for Warwickshire was for the recruitment of 41 additional officers, who were all in place by the end of March 2020, with the promise of additional officers over the next three years. Officer numbers now stand at some of the highest levels in the forces' history, and the planned recruitment should also provide an opportunity to increase BAME representation, address issues of diversity and equality in the force, ensure

Narrative Report

that the service is able to deal with the increases in demands it faces, the changing crime types and be more effective at protecting people from harm. The PCC is also keen to increase the number of Specials within the force, recognising the invaluable work that they carry out, and the force are therefore undertaking a Specials recruitment drive backed by more PCC funding.

Table 2 shows the breakdown across the various staffing groups of BAME employees. Whilst there is some fluctuation across the groupings, on average 6.39% of Warwickshire police employees are from BAME communities at the end of 2019/20 compared to 5.63% at the end of March 2019, which goes some way in demonstrating the progress being made towards achieving increased diversity across the workforce.

Table 2. Workforce Ethnicity Analysis

	Total	BAME	BAME %
Police Officers	1,027	53	5.16%
Police Staff	886	65	7.34%
Specials	90	7	7.78%
PCSO's	94	9	9.57%
Total	2,097	134	6.39%

4. Financial Performance

In an effort to understand the financial performance of the force in 2019/20, it is essential to consider the wider economic climate that it is operating within. In response to many years of austerity and reduced public spending, Warwickshire police had been successful under the alliance arrangements of generating at least £35 million of savings, which helped it to deliver value for money for taxpayers, and to deliver responsive and effective operational policing services against a back drop of increased demand.

However, the cost pressures felt by Warwickshire, despite operating within the alliance were a reflection of the national picture. In October 2017 the police service nationally informed the Home Office that policing needed an additional £440 million in 2018/19 and £845 million in 2019/20 in order to cope with the increase in demand and pressures on police time arising from increases in overall crime levels, crimes becoming more complex, increased terrorist threat and the police increasingly being called on to provide a response where other public agencies lacked capacity or ability. In 2018/19, increased funding was driven at a local level by offering the flexibility to increase council tax by £12 for a band D property which was taken up by the PCC, and enabled the recruitment of new officers in Warwickshire to address the increases in demand. However, there were also additional cost pressures announced in the Chancellor's autumn statement in 2018 for police officer pensions due to changes in Treasury discount factors and other Pension Valuation Directions from HM Treasury, which indicated a significant increase in the employers' contribution rate from 2019/20. At national levels these additional police pension costs were anticipated to be an increase of £30-40 million, but the forecast increase in September 2018 was for an additional £417 million. Whilst the Treasury indicated it would fund £252 million of the extra cost in 2019/20 this still left a significant cost of £165 million for PCCs to fund from their local policing budgets. Further lobbying of Government by the Association of Police and Crime Commissioners (APCC) and the National Police Chiefs Council (NPCC) took place to seek additional funding

Narrative Report

in 2019/20 to cover the increased cost of police officer pensions to prevent further impact on local policing budgets.

As a result in December 2018, the Home Secretary outlined that:

“We will also help forces to both meet additional demand and manage financial pressures. In total, we will enable an increase in funding for the police system of up to £970 million, the biggest increase since 2010. This includes increases in Government grant funding, full use of precept flexibility, funding to support pension costs, and increased national funding to meet the threats from counter-terrorism and serious and organised crime.”

The £970million of additional funding was made up as follows:

£161m of core policing grant
 £153m of pensions grant
 £59m for additional counter terrorism funding
 £90m for additional serious organised crime work, and
 £509m from additional council tax flexibilities assuming all PCC’s exercised their full flexibility.

In Warwickshire the PCC is locally responsible for setting the total annual budget within which the Chief Constable is expected to operate and against which financial performance is measured. The Chief Constable’s only source of income is through the intra-group transfer, where the PCC reimburses the Chief Constable for the cost of day to day policing up to the agreed budget. This is representative of the relationship between the PCC and the Chief Constable, and is underpinned by the governance arrangements.

The total annual budget for the group is funded through government grant and the precept. The PCC approved an 11.77% increase in precept in 2019/20 by applying the full flexibility on offer of £24 on a band D property. The breakdown of funding for the 2019/20 budget is shown in table 3 below. Expenditure that can be charged against the budget is determined on a statutory basis. By contrast the Accounts include income and expenditure that are measured and reported in accordance with proper accounting practice as set out, chiefly, in The Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (also known as ‘the Code’). A reconciliation between the figures used to produce the outturn, explained in the following paragraphs and those contained in the Accounts is provided in Note 1. Table 3 shown below, analyses how the budget is funded:

Table 3. Funding 2019/20

Where the Money Came From	Budget £m	Actual £m	%
Central Government Funding	53.940	53.940	0.00
Locally Raised Funding – Precept (Council Tax)	47.495	47.495	0.00
Total Funding (excluding reserves)	101.435	101.435	0.00

The PCC agreed a 2019/20 net revenue budget of £102.720m which includes the use of £1.285m of reserves resulting in a budget requirement of £101.435m, which is funded from

Narrative Report

government grant and precept. The following table shows the outturn position by comparing the revised budget to the actual for 2019/20.

Table 4. The Warwickshire PCC and Chief Constable (the 'group') outturn for year ended 31 March 2020

Warwickshire Police	Budget £m	Budget Adjustments £m	Revised Budget £m	Actual £m	Variance £m
Police officers' pay	51.142	(0.473)	50.669	50.979	(0.310)
Police officers' overtime	1.246	0.263	1.509	2.187	(0.678)
Police staff pay	25.847	0.454	26.301	27.212	(0.911)
Police staff overtime	0.294	(0.002)	0.292	0.454	(0.162)
PCSO pay	2.869	0	2.869	2.688	0.181
Police pensions	1.301	0	1.301	1.48	(0.179)
Other employee expenses	0.455	0	0.455	1.238	(0.783)
Premises	3.104	0.008	3.112	3.109	0.003
Transport	2.149	0.061	2.210	2.421	(0.211)
Supplies & services	11.310	(0.241)	11.069	11.258	(0.189)
Third party payments	6.258	0.033	6.291	6.242	0.049
Capital financing	1.679	0	1.679	1.646	0.033
Expenditure	107.654	0.103	107.757	110.914	(3.157)
Income	(7.599)	(0.242)	(7.841)	(7.228)	(0.613)
Net Force	100.055	(0.139)	99.916	103.686	3.770
Office of the PCC	0.984	0	0.984	0.845	0.139
PCC – victims commissioning	0	0	0	0.081	(0.081)
PCC Commissioners grant scheme	1.681	0.165	1.846	1.739	0.107
PCC – Business, Rural & Cyber Crime	0	0	0	0	0
PCC – Crime Reduction Fund	0	0	0	0	0
Total PCC	2.665	0.165	2.830	2.665	0.165
Net Force	102.720	0.026	102.746	106.351	3.605
Total Use of Reserves	(1.285)	(0.026)	(1.311)	(4.916)	(3.605)
Net Force Budget Including Use of Reserves	101.435	0	101.435	101.435	0

Table 4 shows actual net expenditure in 2019/20 of £106.351m, which is £4.916m more than the core funding of £101.435m from Government grants and precept. This includes the expenditure on PCC controlled activity.

The total approved budget for 2019/20 allowed for a draw down from earmarked reserves of £1.285m to meet the in year costs associated with ongoing programmes of work and one-off investments primarily in ICT. In considering the adequacy and use of reserves, in setting the 2019/20 Budget and MTFP, authority was granted to draw down a further £3.450m from

Narrative Report

earmarked reserves to meet reasonable costs incurred as a result of transitioning out of the alliance. Therefore, the total authorised use of reserves in 2019/20 was £4.735m. However, the outturn of £106.351m outlined above required an additional draw down of £0.181m from reserves which was subsequently approved by the PCC.

Some of the main causes of this variance are as follows:

- **Police Officer Pay – Overspend £0.310m.** The reason for this movement is partly the continued trend of there being less leavers than anticipated and the cost of transfers into the Force being higher than estimated. Progress on recruiting the uplift officers has also been good with all 41 officers recruited by March 2020.
- **Police Officer Overtime – Overspend £0.678m.** An element of the overtime overspend was anticipated and planned to maintain operational effectiveness in lieu of recruitment. Overtime also draws on the Chief Constable's Operational Contingency (OCON) for unforeseen operational events that the Force is required to respond to. Warwickshire have faced significant operational challenges during 2019/20 including policing HS2, a range of serious offences, and enquiries into serious historic crimes which also accounts for some of the additional overtime costs.
- **Police Staff Pay – Overspend £0.911m** The reason for this is twofold. There has been an acceleration in recruitment to stand up services in Warwickshire as part of the transition and also an element of dual running costs whereby members of the Executive Team have been paid for fully by Warwickshire Police from the date they started, whereas the 2019/20 budget only provides for 31% of their costs.
- **Other Employee Expenses – Overspend £0.783m** This includes £0.316m of redundancy costs including the cost or strain on the Local Government Pension Scheme (LGPS) of releasing the pension early, which will be met from reserves. The majority of the remainder of the overspend relates to training expenses. Following a skills gap analysis training has been undertaken in Digital Services and Force ops to ensure staff are appropriately skilled to undertake the work they are required to do and in leading change.
- **Transport – Overspend £0.211m** The overspend is mainly related to accidents and repairs, which are partially offset by income recovered from 3rd parties.
- **Income – Under Achievement of £0.613m** The main reasons for this are related to the lower levels of Mutual Aid received for policing events, at the request of other forces and vehicle sales income now transferred to capital. This has been partially offset by the Uplift grant, the National Cyber Specialist Programme grant, additional interest on cash balances and vetting income.

In addition to the spending on day-to-day activities, the PCC also incurs expenditure on buildings, information technology, vehicles and other major items of specialist equipment which have a long-term useful life. This type of spend is known as capital expenditure.

Table 5 shows an analysis of capital expenditure and how this has been funded.

Table 5. Capital Programme outturn 2019/20

Narrative Report

Programme Capital Expenditure for the year	Revised Approved Budget £m	Actual £m	Variance £m
Estates	3.647	0.223	(3.424)
ICT	8.456	1.946	(6.510)
Transport	1.001	0.788	(0.213)
Other eg plant and equipment	0.471	0.052	(0.419)
Total Expenditure	13.575	3.009	(10.566)
Programme Capital Funding for the year			
Capital Receipts	1.300	0.072	1.228
Capital Grants	0.400	0.442	(0.042)
Specific Grants	0	0.175	(0.175)
Section 106 funding	0	0.048	(0.048)
Revenue Contribution to Capital Expenditure	0	0.000	0
Safer Roads reserve	0	0.027	(0.026)
Transformation reserve	0	0.368	(0.368)
Infrastructure reserve	0	1.878	(1.878)
Borrowing	11.875	0.000	11.875
Total Funding	13.575	3.009	10.566

The variances in the actual expenditure are due to slippage in programmes primarily (£10.300m), but also some efficiency savings in projects that have emerged as underspending (£0.266m). The ICT projects have been undertaken jointly with West Mercia and are shared on a 69:31 basis. The following section however, provides a commentary on the investment across the capital programme that has been made in 2019/20.

The estates and ICT programmes account for the majority of the slippage. The capital programme was originally constructed under the alliance, therefore, the programme contained projects, some of which had started, which were no longer appropriate for Warwickshire in the future as a standalone force, and thus the strategy for Warwickshire was re-considered mid-year. Inevitably this led to a pause in projects to enable the due diligence to be undertaken which inevitably led to lower expenditure in 2019/20 than was originally planned for projects that were continued.

The capital programme (budget) was reconfigured to accommodate the design by the Change Team, known as Evolve, for Warwickshire's post alliance state, however there was always a recognition that the precise timings for the estates and ICT works would have to be refined as the discovery phase was progressed. This has also had the effect of increasing the slippage of some expenditure between 2019/20 and 2020/21.

The ICT / Digital Service programme which forms a considerable part of the capital programme is complex, and there are a number of interdependencies between projects. The ICT infrastructure was in need of significant investment in 2019/20 and over the medium term to undertake remedial works to stabilise the infrastructure and to upgrade systems.

Narrative Report

However, some of this work has been delayed due to its complexity, emerging issues and the capacity of the shared ICT Team. However, the work continued around the new ICT Infrastructure and collaboration programmes which will enable Warwickshire to transition to its new collaborative partner – West Midlands police and there are no significant delays identified at this time, although the pandemic may have a bearing on progress if the outbreak is prolonged.

The ICT Capital programme also contains the Emergency Services Network (ESN) programme, which is a national programme across a range of public bodies, to replace the current Airwave radio system and deliver better voice and data services. This is a large and complex national project, which has experienced various challenges resulting in delays and contributing to the 2019/20 slippage. It is anticipated that the ESN programme will not see the full spending of the identified budget due to such issues until 2022/23, although this may get delayed again with the recent decision to exclude Huawei from 5G implementation in the UK, but the position is currently unclear.

With regard to the estates programme the focus has been on the immediate recommission and repurposing of the Leek Wootton HQ site in response to the termination of the alliance. Some of this work has also been paid for through the revenue budget as it did not meet the definition of capital works. The roof replacement at Stratford, originally scheduled for 2019/20, has been delayed and is now planned to take place in 2020/21. The Estates Strategy is under review and it is anticipated that this will inform the extent and nature of future capital investment. Until such time as the Estates Strategy is in place capital expenditure will be limited to repairs maintenance and modest developments.

The Slippage on the Body Armour Replacement project, which accounts for £0.400m against Other Equipment is due to delays on the national procurement exercise.

Funding for the 2019/20 capital programme is also shown in table 5. This fully reflects the strategy set out in the MTFP and the 2019/20 Budget agreed in February 2019, along with any subsequent amendments made in light of the evolving financial position of the Force and the consequences of transitioning out of the alliance. In establishing the financing of the capital programme, priority is first given to exhausting capital receipts and non-specific capital grant. Specific grant is used to fund specific projects where the conditions of the grant have been satisfied. Any remaining financing will be a combination of reserves and borrowing.

The net £10.5m cash settlement with West Mercia Police will be used to fund a substantial part of the change programme, which contains the necessary and reasonable costs of re-establishing Warwickshire Police as a result of West Mercia Police terminating the alliance. The payment will initially be added to reserves, and these reserves will be utilised in accordance with the strategy over the medium term and as per the financing shown in table 5.

Medium Term Financial Plan, reserves and the economic outlook

The Medium Term Financial Plan (MTFP) is approved with the annual budget each February, and was last refreshed in February 2020. Since then a number of financial strategies have also been updated and reviewed to ensure they too reflect the latest information and position, these include the capital strategy, treasury management strategy and reserves strategy. In updating the MTFP, given the absence of any firm information on

Narrative Report

future recruitment levels, government grant or precept levels, assumptions in these areas have been made, and the result is that the approved MTFP requires significant savings in future years, but also moves to a more sustainable position with less reliance on reserves to finance in year budget gaps. This issue will be kept under review and changes in assumptions will also be addressed as part of the budget setting process for 2021/22 when we will also need to factor in the additional costs from the Covid-19 pandemic. These will be updated in coming months as we continue work on the next budget cycle. The MTFP provides for inflationary increases in pay and non-pay, the 41 additional uplift officers and future year uplift estimates, investment in police officers, staff and services, particularly technology and infrastructure to facilitate a smooth transition of services to their new state, which will enable increased productivity and more resilient services. Much of this investment has only been possible because of the additional flexibility in the council tax precept, the national uplift grant and the willingness of the PCC to invest heavily by utilising reserves in key services.

The total savings required in the most recent refresh of the MTFP identify £4.609m over the period 2020/21 to 2022/23, and a further achievement of an extra £1.500m of income from vetting. These are stretching targets that will require planning in good time to enable effective delivery. The Evolve Change team will be leading on this piece of work for the force, which will be scrutinised and shared with the OPCC for final approval. The Medium Term Financial Plan, budget report and capital, treasury management and reserves strategy are all available on the PCC's website.

As at the 31 March 2020 Warwickshire PCC reserves stand at £20.999m. Reserves are an important part of the PCC's financial strategy to deliver the objectives set out in the Police and Crime Plan and the MTFP. During 2019/20 there was a significant draw down from reserves to part finance expenditure incurred during the year to enable the force to prepare and transition services away from the alliance. A settlement on costs was reached with West Mercia, following the alliance termination, which resulted in a net payment to Warwickshire of £10.5m. This money will help to finance the ongoing transitional and transformational investment required to enable Warwickshire to exit from the alliance smoothly over the next twelve months, and establish its new service delivery models and collaborative working with other forces. Note 9 in the Accounts provides an analysis of the reserves at the 31 March 2020 and shows the movement since 31 March 2019 whilst table 6 shows how the Warwickshire PCC's reserves are planned to be used during the period up to 31 March 2023. The overall financial strategy is to operate a good and balanced budget, whereby resources match expenditure, thus creating a sustainable budget with no reliance on reserves to finance the annual budget. The current MTFP and reserves strategy adheres to this approach.

Table 6. Warwickshire Reserves

Reserve	Opening Balance 31/03/2020 £m	Transfer (from)/to Reserves			Closing Balance 31/03/2023 £m
		2020/21 £m	2021/22 £m	2022/23 £m	
General Reserve	5.000	0.000	0.000	0.000	5.000
Budget Reserve	1.707	(1.255)	(0.452)	0.000	(0.000)
Transformation Reserve	9.538	(9.538)	0.000	0.000	0.000
Investment in infrastructure	1.165	(1.165)	0.000	0.000	(0.000)

Narrative Report

PCC grants and initiatives	1.589	(0.500)	0.000	0.000	1.089
Safer Roads partnership reserve	0.300	(0.300)	0.000	0.000	0.000
Redundancy Reserve	0.400	(0.200)	(0.200)	0.000	0.000
Insurance reserve	0.300	(0.150)	(0.150)	0.000	0.000
Income risk reserve	0.500	(0.250)	(0.250)	0.000	0.000
COVID-19	0.500	(0.500)	0.000	0.000	0.000
Total	20.999	(13.858)	(1.052)	0.000	6.089

The economic outlook remains very uncertain. The general election in December 2019 brought increased political certainty, but Brexit and the coronavirus continue to create huge uncertainty for the economy over the short, medium and longer term. Interest rates have been reduced to some of the lowest levels ever recorded, and they are expected to remain at these low levels for some time. It remains unclear what impact Brexit will have on the economy and public sector finances, so this remains an issue for financial planning purposes over the medium term.

However, the unexpected and huge increases in public spending and borrowing by Government to deal with the Coronavirus pandemic provide another added layer of uncertainty on future central funding for policing as well as significant concerns regarding the levels of local precept funding, as collection rates and the number of properties from which council tax will be collected is likely to be affected hugely by a down turn in the economy based on current national forecasts. All of these new and ongoing financial pressures across the MTFP coupled with an increase in operational demand, mean the next few years will be challenging, but work is in hand to make sure that our key priority services are maintained to the highest standards possible within the available funding. We will continue to be robust in driving out all possible savings from non-staff budgets and ensure that, as far as practicably possible, our staff are delivering the right service at the right time as efficiently and effectively as possible.

Pension Liabilities

The value of net pension liabilities is shown in the group balance sheet and is split across police officers and police staff. Further specific details are contained within the summary of the statement of accounts section towards the end of this narrative report. However, in general terms, the police officer pension scheme is an unfunded scheme administered by the Chief Constable. Its status as an unfunded scheme means that there are no assets built up to meet the pension liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due. Both police officers and the employer (i.e. the Chief Constable) make annual contributions which are paid into the Police Pension Fund. In turn, pensions are paid from the Fund to retired officers. The Home Office funds the difference between actual pension payments and pensions income through an annual top-up grant.

Police staff are eligible to join the Local Government Pension Scheme (LGPS) administered by Warwickshire County Council. This is a funded scheme whereby assets are invested to help fund future liabilities. In 2019/20 the Group paid employer's contributions in addition to contributions paid directly by staff. The last valuation was in April 2019 which is now reflected through an increase in the employer contribution rate in 2020/21.

Narrative Report

Treasury Management

The PCC approves a Treasury Management and Investment Strategy before the start of each financial year and receives regular updates on treasury performance throughout the year. These reports are also scrutinised by the Joint Audit and Standards Committee prior to their approval by the PCC. Day to day treasury management activity is delegated to the force

Total investments, cash and cash equivalents at 31 March 2020 were £4.859m. These levels are at a point in time and will be affected most significantly in the future by the value and use of reserves, the disposal of assets and the levels of capital investment.

As part of the 2019/20 approved budget the PCC approved external borrowing to fund the planned capital spend. Whilst no further borrowing was required in 2019/20 due to lower capital expenditure than planned, as at the 31st March 2020 the PCC had group total external borrowings of £12.135m and internal borrowing from cashflow monies of £1.311m. The combined 'debt' figure of £13.446m is well within the authorised prudential limit for external debt of £40m as approved by the PCC in his treasury management strategy in March 2019 and more recently in March 2020.

5. Non-financial Performance

The achievement of Warwickshire Polices vision to 'Protect People from Harm' where harm constitutes death, injury, loss and distress is achieved through the commitment and actions of all our workforce; police officers, police community support officers, police staff, special constables and volunteers. This is supported and enhanced by the valuable contribution that the communities of the two policing areas make, whether giving their time as volunteers or engaging with the force in other ways. The PCC supports many of these initiatives through his extensive and varied grant scheme, the commissioning of services to support the objectives contained within the Police and Crime Plan as outlined above, and his extensive community engagement work.

The PCC holds the Chief Constable to account for the performance of the force. In 2019/20 the PCC agreed again with the Chief Constable that there would be no specific performance objectives other than to reduce total recorded crime. The Chief Constable monitors a range of indicators across crime categories in pursuit of this objective and performance in achieving this is discussed formally at a monthly 'deep dive performance' holding to account meeting.

Day to day performance is monitored through the performance dashboard on the force intranet, which is updated daily across a range of crime areas. The information provided by the dash board is used to take corrective action to address emerging issues and adverse trends. This information is available to view at a high level across the organisation. Daily policing is directed by the Chief Constable, which is informed by the Police and Crime Plan and the Strategic Assessment, which is an assessment of the highest risks and harms at national and local levels.

The Chief Constable controls specific actions through various policies and procedures, the behaviours of the workforce and culture of the Alliance are shaped by our values and the national Code of Ethics. Whilst, we acknowledge that we do not always get it right and that the actions of a few can let down the vast majority of hard working and dedicated people that

Narrative Report

work to protect people from harm, we always seek to ensure that high standards of conduct are enforced, and the Professional Standards Team seek to proactively address concerns that are raised with them and to ensure that we learn from our experiences. The PCC and his office also hold the Force to account and any arising issues may also be investigated and reported through these channels, along with a shared Complaints appeals manager with West Midlands OPCC to deal with the recent changes in the appeals process.

Table 7 shows a summary of our performance for 2019/20 against the various categories of crime, and compares this to the number of crimes recorded in the previous year. These figures indicate that total recorded crime decreased slightly by 3 incidents compared to 2018/19. Total recorded crimes have generally continued to increase nationally reflecting a continued focus by all forces on the quality of crime recording, as well as specific activity to encourage victims of domestic abuse and sexual offences to come forward and report crimes to the police. Whilst the policing performance statistics for 2019/20 show a positive direction of travel in some crime areas compared to the previous year – burglary, vehicle offences and criminal damage for example, it shows a less positive picture in others, including rape and sexual violence crimes and other crimes involving violence.

Table 7. Policing performance 2019/20

Crime Category	Volume	Change on 2018/19
Total Recorded Crime	42,369	-3
Homicide	9	+6
Violent Against the Person with Injury	4,683	+67
Violent Against the Person without Injury	9,921	+1,001
Rape	564	+158
Other Sexual Offences	948	+71
Robbery (business)	55	-7
Robbery (personal)	370	-35
Burglary – (all)	3,610	-473
Shoplifting	3,348	+50
Vehicle Offences	4,817	-160
Theft from Person	378	-75
Bicycle theft	565	-137
All other Theft Offences	4,534	+19
Criminal Damage and Arson	4,070	-619
Public Order offences	2,332	+18
Possession of Weapons offences	486	+66
Drug offences	928	+22
Miscellaneous crimes against society	751	+25

*Please note these figures may differ to equivalent figures quoted elsewhere due to differences in when the data is reported.

In terms of safety on our roads 2019/20 saw a decrease in the number of fatalities, with 28 road deaths compared to 36 in 2018/19, but improving road safety remains a key focus for the PCC and Chief Constable through increased investment. Satisfaction in policing services generally is measured through the national crime survey (England and Wales). National

Narrative Report

satisfaction rates in 2019/20 averaged about 75%, with the figures for Warwickshire being broadly comparable to the national average.

Value for Money

Both the PCC and Chief Constable have a duty to provide efficient and effective policing at an affordable cost. Her Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) provides an annual independent thematic inspection and assessment of the force's performance in terms of its effectiveness, efficiency and legitimacy. Assessments were conducted during 2019/20, and covered the 3 specific areas:

- Effectiveness – how effective are the force at keeping people safe and reducing crime;
- Efficiency - does the force provide value for money;
- Legitimacy – treating people with fairness and respect.

The results of the assessments were released in September 2019 and were as follows:

- Effectiveness – Good
- Efficiency – Requires Improvement
- Legitimacy – Good

An integrated report is now produced on the inspection findings and the full details of the most recent HMICFRS inspection reports for Warwickshire can be found at:- www.justiceinspectors.gov.uk/hmicfrs/peel-assessments/peel-2019/warwickshire/. Annual inspections are undertaken, although it usually takes some time to produce the final report, which often fall into the next financial year reporting period. The inspection regime and work by HMICFRS is supported by reviews of the force management statements particularly on risk and increased force monitoring. More details on the inspection process and results are published on the HMICFRS website.

The inspectors highlighted a number of key areas where the force needs to do more to better protect the public and provide a more effective service, however there was also recognition of the many aspects where the force has improved and of the hard work and dedication of the workforce. In the majority of cases the inspection reports identify a number of areas for improvement. In response, the force has developed an action plan to deliver the required improvements, achieved through core groups of senior officers, police staff, and with PCC representation which is overseen by chief officers. The Joint Audit and Standards Committee also receive regular updates on this area of work to provide independent oversight and monitoring of performance to achieve the recommended actions.

Whilst the ending of the strategic alliance was not the desired position of Warwickshire, it provided an opportunity to reassess and evaluate the mechanisms for future service delivery. As a result, new collaboration agreements have been signed with West Mercia in four areas of service to cover the period until March 2021, with flexibility to extend for a further 6 months, and future collaborations with West Midlands have also been approved to commence from April 2021. These collaborations will continue to ensure that costs are transparent, and provide value for money for Warwickshire communities to facilitate efficient and effective policing. Other collaborations and partnership working also exist including at the Justice Centres covering various criminal justice service areas in the north and south of the county, regionally for example through the regional organised crime unit and the regional

Narrative Report

policy officers who support the work of the PCC's across the region and also to deliver estates services through Place Partnership Limited (PPL). The police headquarters at Leek Wootton is now fully re-designated and services are delivered directly from that site, and it is therefore held as an operational asset on the balance sheet. PPL have assisted with some planned estates rationalisation, with the imminent sale of Southam Police Station. Other estate is being invested in, for example the new roof at Stratford police station and this work will continue in line with the capital programme in future years. Warwickshire police and the PCC are equal shareholders in addition to other bodies in Place partnership Ltd, which operates as a Teckal company. Worcestershire County Council, one of the other equal PPL shareholders served notice to withdraw from the arrangement from March 2021. The implications of this decision on PPL and future estates provision will be considered over the coming months to ensure that service provision is maintained in Warwickshire and that it is efficient, meets business needs and provides value for money.

6. The Coronavirus Pandemic

The Coronavirus pandemic outbreak towards the end of March despite being primarily a public health emergency, required a significant police response in terms of maintaining business as usual and policing specific issues arising as a consequence of the pandemic. In response the Chief Constable set up a covid-19 command structure and dedicated team which linked in nationally and regionally to other forces and the Home Office, which follows NPCC emergency incident response protocols. The PCC and Force also linked in to other public bodies through the Local Resilience Forum. Warwickshire Police (PCC and Chief Constable) have been well placed, as an emergency service, and remained fully operational throughout the lockdown, implementing business continuity plans to maintain capacity and capability and deploying technology to enable distance working. It is anticipated that some of the measures taken to enable more agile working will be retained and lead to more efficient ways of working in the future. Workplace planning has followed national guidance and it continued to adapt during the changing circumstances and guidance during the pandemic

The community response to policing has been well received with high levels of satisfaction with the Forces approach of Engage, Explain, Encourage and Enforce. The financial consequences of the pandemic for the PCC are still uncertain and will be viewed over the short and longer term. Full reimbursement from the Home Office for the PPE equipment procured directly by the force has only recently been confirmed, with further details awaited on the process for receiving this. The Home Office are collecting information, on a monthly basis, from all 43 forces in England and Wales in respect of their additional Covid-19 costs and savings so it is envisaged that this will drive the reimbursement. The position on reimbursement of other costs is even less certain, but it is anticipated that the Home Secretary will announce her decision on future grant support later this year, following ongoing consultation with the Association of Police and Crime Commissioners (APCC), the National Police Chiefs Council (NPCC) and HM Treasury. All costs and savings associated with Covid-19 will continue to be monitored, tracked and reported to Chief Officers and the PCC on a regular basis, including in the Holding to account meetings. The supply of PPE has been an issue for health services particularly during the early days of the pandemic, but the force have been able to effectively manage these supplies during this period, along with the supply of regular day to day goods and services needed for policing. The Force and PCC chose to support their suppliers by paying them in advance of payment terms to help with cash flow issues and other more targeted support through a retainer scheme for forensics. Cashflow has been an issue with some forces during the pandemic, but this has remained

Narrative Report

generally healthy in Warwickshire, during the crisis. Further information and cash flow will be supplied to the PCC in the end of year Treasury report.

The long term effect of the pandemic is difficult to assess at this stage and very much depends on the impact on the economy and the government response, as well as the cost implications of the various rescue packages that the government have put in place. Perhaps the most significant current risk arising from the pandemic is the uncertainty on future funding levels. The CSR is planned for the autumn and will provide the first indicator on future funding and wider public spending plans. Approximately 50% of annual funding is from Council Tax, but this also poses a risk, as this will be reduced by the level of unpaid council tax, the reduction in house building, the number of people in receipt of council tax support and vacancy levels, for example. The budget for 2020/21 was agreed in February 2020 and was thought to be adequate but this was before Covid-19. The pandemic has impacted on demand and the types of crime, and although this is returning to more normal levels, some changes may be permanent; how the force responds to this will be a source of ongoing development, but it could result in additional financial demands as yet un-provided for. The financial impact of Covid-19 on the current year (2020/21) is only just beginning to be understood and this too will continue to evolve. The PCC has established a separate earmarked reserve of £0.500m to deal with some of these costs, if they are not reimbursed, and this will be monitored over the coming year. The “new norm” following Covid-19 will also require us to revisit the MTFP assumptions and potentially reassess the best way to bridge the anticipated “gaps” in our future funding.

7. Corporate Risks and horizon scanning

The PCC and Chief Constable each have a Strategic Risk Strategy in place to ensure that the risks facing the force and the PCC’s office are effectively and appropriately identified, evaluated, reported and mitigated against. The PCC and force risk registers are reviewed regularly by the respective chief officer teams and they are also reported to the Joint Audit and Standards Committee to provide over sight and to ensure that risks are managed. The risk strategy and registers have recently been reviewed more fundamentally for the force and the PCC, as more services transition from the alliance and embed within Warwickshire. This review has resulted in a change to the style of the risk register and the strategic risks have been reviewed and updated to ensure they reflect the current position.

Horizon Scanning

A review of challenges the force and wider public services are likely to face has been undertaken. The force will remain mindful of these in setting its strategy to ensure it is able to provide effective policing services in the medium term

- The service is seeing a technological shift and resulting increase in demand from the ‘cyber related’ element of criminality. ‘Cyber related’ crime covers a wide range of offence types from international fraud, to online child sexual exploitation, to digitally enabled high volume, low level criminality, such as harassment via social media. The use of technology as a means of interconnectivity continues to increase, relentlessly, becoming more culturally engrained and making the world a tangibly smaller place. Forensic retrieval of evidence from digital devices is becoming an ever-greater

Narrative Report

challenge, due to the sheer quantity of internet enabled devices available, the areas of criminality linked to and the vast increase in storage and connectivity.

- Technology has enabled many crime types that traditionally the police did not have to manage in the same way. Online sexual exploitation of children and vulnerable people, sharing of indecent images and similar cyber offences committed through the anonymity that the internet offers is an area of hidden demand that we predict will rise in the future. At a lower level, the rise of social media, drawing significant levels of threat, hate and criminality that is often seen to require a police response.
- The wider vulnerability agenda is clearly a priority for many forces, the inspectorate, government agencies and the third party sector, with an increased focus on Domestic Violence and abuse, Modern Slavery, Human Trafficking and Child Exploitation. As these areas of vulnerability become more visible and the expectation of positive action increases, this could impact on resources from not only a police perspective, but also from a social care and third sector standpoint.
- There has been an increased focus on tackling cross border criminality, especially activity related to 'County Lines', which relates to Organised Criminal Groups (OCG) importing drugs from one area to another, often utilising children or vulnerable adults.
- The digitalisation and diversification of online and social contact channels is a future demand we will need to carefully consider as part of our future digital public contact estate. People interact with most organisations digitally now and this is a preferred method of contact. There are also increased expectations around how the public are able to maintain contact with investigating officers or with members of their local Safer Neighbourhood Team (SNT), in line with how they may keep in contact with commercial organisations.
- There are likely to be unprecedented economic challenges over the coming years as a result of the impact of COVID-19 on the economy, but also the impact of Brexit. It is likely that public sector funding will be under pressure and there is the risk of heightened public disorder. COVID-19 is likely to be with us for some time and impacts on all areas of how we deliver our service.
- HS2 is a large national infrastructure project linking London, via high speed rail, to Birmingham as part of stage 1. The line from London to Birmingham will intersect Warwickshire in the south of the county, then through to the north of the county. This project is generating significant public attention and interest which will require a long term continuing policing response.
- The Police Service will begin to see the impact of the 2015 pension changes, which represents a potential risk and challenge for the service. Additionally, the recent ruling in relation to police pensions, that the transitional provisions were deemed to be discriminatory, will have an impact due to the likelihood that will be given the opportunity to return to their original schemes.

8. Conclusion and acknowledgements

The Chief Constable will continue to drive value for money across all areas of policing and closely monitor financial performance throughout the year to ensure that policing demands

Narrative Report

can be met within the resources available. During 2019/20 the force has made great strides in recruiting additional police officers under the national Police Uplift programme. Warwickshire Police was asked to recruit an additional 41 police officers by March 2021, with funding provided for 14 of these in 2019/20. In reality, the force have recruited all of the 41 officers before the 31st March 2020. Despite these additional resources, 2020/21 will undoubtedly be another challenging year, but the force will continue to work towards transitioning the final four areas of services which remain collaborated with West Mercia, they will be working hard to establish the new ways of working with its new partner West Midlands police, and they will continue to deal with the ongoing impact of the coronavirus pandemic and the uncertainty and changes to normal life that it has brought, along with the uncertainties regarding future funding. Risks around all of these areas of work will continue to be monitored – financial and non-financial - to ensure that the force achieve their vision of protecting people from harm, by working with partners, to deliver effective and efficient policing services that provide value for money to taxpayers and all Warwickshire communities.

The production of the Statement of Accounts would not have been possible without the exceptionally hard work of the Force Finance Department. I would like to express my gratitude to all colleagues who have assisted in the preparation of this document. I would also like to thank them for all their support during this particularly challenging year.

Jeff Carruthers
Director of Finance, Warwickshire Police

Summary on the Statement of Accounts

The Accounts and Audit Regulations 2015 require the PCC and Chief Constable to produce a Statement of Accounts each financial year. These statements contain a number of different elements which are explained below.

As previously mentioned in this statement it is the purpose of the Statement of Accounts (the Accounts), consisting of the financial statements and notes to the accounts, to demonstrate that the Group, consisting of the PCC and the Chief Constable has accounted for public money properly and been economical, efficient and effective in the use of that public money.

The treatment of transactions (income and expenditure) and balances (assets, liabilities and reserves) in the PCC's and Chief Constable's Accounts under the Group arrangement and within the context of the Alliance is explained in Note 3, 'Critical Judgements in Applying Accounting Policies'. The PCC and Chief Constable are classified as a group arrangement under accounting standards, the Chief Constable being a subsidiary of the PCC. The specific accounting treatment takes into account the substance of the arrangements for governing the two entities and recognises the formal stage 2 transfer of responsibilities from the PCC to the Chief Constable that took place on 1 April 2014.

The Accounts reflect current legislation and local operating arrangements, where legislation takes precedent over the Code or where the Group position differs from that of the PCC this is explained in the Accounts and the notes. The following is an explanation of the contents of the Accounts and the main financial statements, their purpose and relationship between them.

Narrative Report

They comprise:

- The **Statement of Accounting Policies**, which sets out the accounting policies adopted by the Chief Constable and explains the basis on which the financial transactions are presented;
- The **Statement of Responsibilities** for the Accounts, which sets out the responsibilities of both the Chief Constable and the responsible Chief Finance Officer for the preparation of the Accounts;
- **Auditor's Report** gives the auditor's opinion of the financial statements and of the Group's arrangements for securing economy, efficiency and effectiveness in the use of resources;
- The **Comprehensive Income & Expenditure Statement (CIES)** is a summary of the income and expenditure received and used to provide services during the year and shows how the Chief Constable has funded the cost of net expenditure incurred at the by an intra-group transfer. The surplus or deficit on the provision of services line flows into the MIRS to be transferred into the balance sheet as explained below;
- The **Movement in Reserves Statement (MIRS)** shows the movement in the year on the different reserves held by the Chief Constable. A further analysis and explanation of the purpose for which these unusable reserves are held can be found at Note 9. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Group's services, more details of which are shown in the CIES. This is different to the statutory amounts that can be charged against the police fund and taxation, whereas the net increase before transfers to earmarked reserves is the sum after adjustment for the entries required to comply with accounting standards, Note 8 provides detailed analysis of the adjustments contained in the MIRS;
- The **Balance Sheet**, which shows the value as at the 31 March 2020 of the assets and liabilities recognised by the Chief Constable. The net assets (assets less liabilities) are matched by the usable and unusable reserves, which hold the transfers from the CIES, which have moved through the MIRS;
- The **Cash Flow Statement**, which summarises the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes;
- **Notes to the Accounts**, these comprise a detailed analysis of the summarised financial information in the Core Financial Statements, including the Expenditure and Funding Analysis (Note 1);
- **Police Officer Pension Fund Account** - This identifies the payments in and out of the Police Officers Pension Fund Account for the year;
- The **Annual Governance Statement** – This section describes how the PCC conducts business in accordance with proper standards and presents the findings from the annual review of the effectiveness of systems of internal control. The Annual Governance Statement does not form part of the Accounts but is included here for reporting purposes.

Narrative Report

For completeness, the Chief Constable's Accounts should be read alongside the Group and PCC's Accounts.

The CIES shows a deficit on the provision of services of £26.348m. The deficit is arrived at after accounting for costs and income in line with the Chief Constable's accounting policies and recognised accounting conventions, which is different to the statutory basis used to identify the net expenditure to be funded from local taxation in the form of the Council Tax. For example, proper accounting practice requires the full cost of future pension liabilities to be recognised in the Accounts and is a significant part of the deficit on the Chief Constable's CIES.

The financial standing of the Chief Constable needs to be viewed from the perspective of the movement in the Police Fund, as set out in the MIRS, which reconciles the CIES to the statutory basis for determining taxation.

In accordance with International Accounting Standard (IAS) 19, the cost of employment and post-employment liabilities is shown in the Chief Constable's Accounts. The Chief Constable maintains a negative pensions reserve to match the estimated liability in relation to Police Officers, Police Staff and Police Community Support Officers' retirement benefits, which at the 31 March 2020 is £1,109.951m. However, in considering the impact that this has on the financial position of the Group it must be remembered that:

- Police Staff and Police Community Support Officers are entitled to join the Local Government Pension Scheme (LGPS), which is a funded scheme. The liability will be funded by future planned increases in both the employee and employer contributions.
- The Police Pension Scheme, under the current arrangements, is funded partly by police officer and employer contributions. If there is insufficient money in the Pension Fund Account to meet all expenditure commitments in any particular year the Home Office will fund the deficit.
- The Police Pension Scheme and LGPS have been subject to reform and as from 1 April 2015 the former became a career average (CARE) scheme; the LGPS became a CARE scheme on 1 April 2014. Therefore the future benefit structures, as well as the level of contributions, have changed.

Further information about the IAS 19 liability can be found under Note 35 and information about the Police Pensions Fund Account can be found on page 93.

UK exit from the European Union (non-adjusting event)

The UK left the EU on 31st January 2020 entering a transition period that is planned to end on 31st December 2020. This decision may have an impact on our future accounting assumptions and estimates and we will keep up to date with the situation as it unfolds and as information is available to ensure that this is considered in future years. Areas that may be affected are:

- Future levels of Government support / funding;

Narrative Report

- The potential for an economic downturn / recession and impact on service provision / finances;
- Impact on interest rates and investment income;
- Potential impact on property valuations and the Pension Funds.

Narrative Report

The Statement of Accounts

It is the purpose of the Statement of Accounts (the Accounts), consisting of the financial statements and notes to the accounts, to demonstrate that the Chief Constable has accounted for public money properly and been economical, efficient and effective in the use of that public money. To better understand the financial statements it is important to understand the arrangements that govern the PCC and Chief Constable and the relationship between them as well as the relationship with their counterparts in West Mercia, through the alliance, which also effects the figures contained in the financial statements and disclosures in the notes to the accounts.

The treatment of transactions (income and expenditure) and balances (assets, liabilities and reserves) in the PCC's and Chief Constable's Accounts under the Group arrangement and within the context of the Alliance is explained in Note 3 'Critical Judgements in Applying Accounting Policies'. The PCC and Chief Constable are classified as a group arrangement under accounting standards, the Chief Constable being a subsidiary of the PCC. The specific accounting treatment takes into account the substance of the arrangements for governing the two entities and recognises the formal stage 2 transfer of responsibilities from the PCC to the Chief Constable that took place on 1 April 2014.

A summary of this arrangement was set out earlier in this report. The Accounts reflect current legislation and local operating arrangements, where legislation takes precedent over the Code or where the Group position differs from that of the PCC this is explained in the Accounts and the notes. The following is an explanation of the contents of the Accounts and the main financial statements, their purpose and relationship between them.

They comprise:

- The **Statement of Accounting Policies**, which sets out the accounting policies adopted by the Chief Constable and explains the basis on which the financial transactions are presented;
- The **Statement of Responsibilities** for the Accounts, which sets out the responsibilities of both the Chief Constable and the responsible Chief Finance Officer for the preparation of the Accounts;
- **Auditor's Report** gives the auditor's opinion of the financial statements and of the Chief Constable's arrangements for securing economy, efficiency and effectiveness in the use of resources;
- The **Comprehensive Income & Expenditure Statement (CIES)** is a summary of the income and expenditure received and used to provide services during the year and shows how the PCC has funded the cost of net expenditure incurred at the request of the Chief Constable by an intra-group transfer. The surplus or deficit on the provision of services line flows into the MIRS to be transferred into the balance sheet as explained below;
- The **Movement in Reserves Statement (MIRS)** shows the movement in the year on the different reserves held by the Chief Constable. A further analysis and explanation of the purpose for which these unusable reserves are held can be found at Note 9. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost

Narrative Report

of providing the Chief Constable's services, more details of which are shown in the CIES. This is different to the statutory amounts that can be charged against the police fund and taxation, whereas the net increase before transfers to earmarked reserves is the sum after adjustment for the entries required to comply with accounting standards, Note 8 provides detailed analysis of the adjustments contained in the MIRS;

- The **Balance Sheet**, which shows the value as at the 31 March 2020 of the assets and liabilities recognised by the Chief Constable. The net assets (assets less liabilities) are matched by the usable and unusable reserves, which hold the transfers from the CIES, which have moved through the MIRS;
- The **Cash Flow Statement**, which summarises the inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes;
- **Notes to the Accounts**, these comprise a detailed analysis of the summarised financial information in the Core Financial Statements, including the Expenditure and Funding Analysis (Note 1);
- **Police Officer Pension Fund Account** - This identifies the payments in and out of the Police Officers Pension Fund Account for the year;
- The **Annual Governance Statement** – This section describes how the Chief Constable conducts business in accordance with proper standards and presents the findings from the annual review of the effectiveness of systems of internal control. The Annual Governance Statement does not form part of the Accounts but is included here for reporting purposes.

The Chief Constable's Accounts should be read alongside the Group and PCC Accounts and those of the West Mercia PCC and Chief Constable for West Mercia, which can be found as follows:

<https://www.warwickshire.police.uk/article/3908/What-we-spend-and-how-we-spend-it>
<https://www.westmercia-pcc.gov.uk/key-information/financial-information/>
<https://www.westmercia.police.uk/article/2065/What-we-spend-and-how-we-spend-it>

The CIES shows a deficit on the provision of services of £26.348m. The deficit is arrived at after accounting for costs and income in line with the Chief Constable's accounting policies and recognised accounting conventions, which is different to the statutory basis used to identify the net expenditure to be funded from local taxation in the form of the Council Tax. For example, proper accounting practice requires the full cost of future pension liabilities to be recognised in the Accounts and is a significant part of the deficit on the Chief Constable's CIES.

The financial standing of the Chief Constable needs to be viewed from the perspective of the movement in the Police Fund, as set out in the MIRS, which reconciles the CIES to the statutory basis for determining taxation.

Narrative Report

Pensions Liabilities

In accordance with International Accounting Standard (IAS) 19, the cost of employment and post-employment liabilities is shown in the Chief Constable's Accounts. The Chief Constable maintains a negative pensions reserve to match the estimated liability in relation to Police Officers, Police Staff and Police Community Support Officers' retirement benefits, which at the 31 March 2020 is £1,109.951m. However, in considering the impact that this has on the financial position of the Chief Constable it must be remembered that:

- Police Staff and Police Community Support Officers are entitled to join the Local Government Pension Scheme (LGPS), which is a funded scheme. The liability will be funded by future planned increases in both the employee and employer contributions.
- The Police Pension Scheme, under the current arrangements, is funded partly by police officer and employer contributions. If there is insufficient money in the Pension Fund Account to meet all expenditure commitments in any particular year the Home Office will fund the deficit.
- The Police Pension Scheme and LGPS have been subject to reform and as from 1 April 2015 the former became a career average (CARE) scheme; the LGPS became a CARE scheme on 1 April 2014. Therefore the future benefit structures, as well as the level of contributions, will change.

Further information about the IAS 19 liability can be found under Note 20 and information about the Police Pensions Fund Account can be found on page 64.

Statement of Accounting Policies

i. General Principles

The Statement of Accounts summarises the Chief Constable's transactions for the 2019/20 financial year and its position at the year-end. The accounting policies are the specific principles, bases, conventions, rules and practices applied by the Chief Constable when preparing and presenting the financial statements. The Chief Constable is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2015, which must be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 and the Service Reporting Code of Practice 2019/20 supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments. The principal accounting policies have been applied consistently throughout the year.

ii. Changes in Accounting Policies

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effects of transactions, other events and conditions in the Chief Constable's financial position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. No changes have been made to the Chief Constable's accounting policies in 2019/20.

iii. Income and Cost Recognition and Intra-group Adjustment

The PCC is responsible for the Police Fund into which all income is received including the main funding streams of Police Grant, Revenue Support Grant and Council Tax as well as income from charges and from which all costs are met. The Police Fund is held in a single bank account: the Chief Constable does not have a separate bank account into which money can be received or from which payments can be made.

The Chief Constable's Accounts show the cost of undertaking day to day operational policing under the direction and control of the Chief Constable. Expenditure shown in the CIES include the salaries of police officers, PCSOs and police staff as well as the cost of purchases. In addition, a charge is shown for the Chief Constable's use of assets, which are strategically controlled by the PCC. The capital charge is equal to depreciation of property, plant and equipment and amortisation of intangible assets plus any charge for impairment through obsolescence or physical damage. To fund the operational expenditure the Chief Constable's Accounts show income by way of funding or financial guarantee provided by the PCC to the Chief Constable. This treatment forms the basis of the intra-group adjustment between the Accounts of the PCC and the Chief Constable. However, because the Chief Constable does not have a bank account there is no actual transfer of cash between the PCC and the Chief Constable.

Statement of Accounting Policies

The cost of post-employment benefits accrued by serving and ex-police officers and police staff and the cost of accrued absences is also shown in the Chief Constable's Accounts.

iv. Accruals of Income and Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Supplies are recorded as expenditure when they are consumed. Where there is a gap between the date supplies are received and their consumption they are carried as inventories on the Balance Sheet;
- Expenses in relation to services received (including services provided by police officers, police staff and PCSOs) are recorded as expenditure when the services are received rather than when payments are made;
- Manual accruals of expenditure are not made where the value of the item is less than £1,000.

Notional transactions between the PCC and the Chief Constable are assumed to be settled immediately. The effect is to minimise the debtors within the Chief Constable's Balance Sheet. Where revenue and expenditure has been recognised but cash has not been paid a creditor for the relevant amount is recorded in the Balance Sheet. However, the PCC has not given consent to the Chief Constable to enter into contracts; therefore creditors for purchases are not shown in the Chief Constable's Accounts. However, accruals for police officers, PCSOs and police staff under the control of the Chief Constable are reflected in the Chief Constable's Accounts.

v. Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

However, the Chief Constable does not have his own bank account, therefore the cash figure is a notional figure derived from the PCC's cash and cash equivalents to balance with corresponding items held on the Balance Sheet.

vi. Charges to Revenue for Non-Current Assets

Services under the direction and control of the Chief Constable are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off;
- Amortisation of intangible non-current assets attributable to the service.

Statement of Accounting Policies

vii. Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave, rest days, toil, paid sick leave and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Chief Constable. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year. The accrual is made at the salary rates applicable at the start of the following accounting year, being the period in which the employee takes the benefit. The accrual is charged to the Surplus or Deficit on the Provision of Services, but then reversed out through the MIRS so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs. The accumulated cost is carried to the Chief Constable's Balance Sheet where it is held as a liability and this is matched by an unusable reserve.

Termination Benefits

This policy only applies to members of police staff, including PCSOs.

Termination benefits are amounts payable to employees as a result of a decision by the Chief Constable to terminate their employment before the normal retirement date or an employee's decision to accept voluntary redundancy and are charged on an accruals basis to the Cost of Services in the CIES at the earlier of when the employer can no longer withdraw the offer of those benefits or when the employer recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the Police Fund Balance to be charged with the amount payable by the Group to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the MIRS, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end.

Post-Employment Benefits

Police officers and police staff, including PCSOs have the option of belonging to one of two separate pension schemes relevant to them:

- Police Pension Scheme (PPS) for Police Officers.
- Local Government Pensions Scheme (LGPS) for Police Staff administered by Warwickshire County Council.

Both schemes provide index-linked defined benefits to members (retirement lump sums and pensions) earned as employees worked for the Chief Constable and determined by the individuals' pensionable pay and pensionable service.

Statement of Accounting Policies

The LGPS and the PPS are accounted for as defined benefits schemes as follows:

- the liabilities of the pension fund attributable to the Chief Constable are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of anticipated earnings for current employees.
- International Accounting Standard (IAS) 19 requires the nominal discount rate to be set by reference to market yields on high quality corporate bonds or where there is no deep market in such bonds then by reference to government bonds.
- the PPS liabilities are discounted using the nominal discount rate based on government bond yield of appropriate duration plus an additional margin and the LGPS liabilities are discounted to their value at current prices, using a discount rate based on corporate bond yields at 31 March 2020.
- the discount rates used by the actuaries and other principal assumptions are set out in Note 20.
- the assets of the LGPS fund attributable to the Chief Constable are included in the Balance Sheet at their fair value:
 - quoted securities – current bid price
 - unquoted securities – professional estimate
 - unitised securities – current bid price
 - property – market value

The change in the net pensions' liability is analysed into the following components:

- **Current service cost** – the increase in liabilities as a result of years of service earned in the current year – allocated in the CIES to the services for which the employees worked;
- **Past service cost** – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the CIES as part of Non Distributed Costs;
- **Net interest on the net defined benefit liability** i.e. net interest expense for the Group – the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the CIES – this is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability at the beginning of the period – taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments;

Statement of Accounting Policies

- **Re-measurements comprising:**
 - **the return on plan assets** – excluding amounts included in net interest on the net defined benefit liability – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure;
 - **actuarial gains and losses** – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure;
- **Contributions paid to the pension fund** – cash paid as employer’s contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the Police Fund Balance to be charged with the amount payable by the Chief Constable to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the MIRS this means that there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the Police Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

A difference between the two schemes is that the PPS is an unfunded, defined benefit, final salary scheme, whereas the LGPS is a funded, defined benefit scheme and, with effect from 1 April 2014, became a career average (CARE) rather than final salary scheme. As the PPS is unfunded there are no investment assets built up to meet the pensions’ liabilities and cash has to be generated to meet the actual pensions payments as they eventually fall due. This is further explained in the notes to the Police Pension Fund Account on page 62.

It should be noted that the Chief Constable has not exercised powers to make discretionary awards of retirement benefits in the event of early retirements. The approach set out in the joint Government Actuary’s Department (GAD)-CIPFA paper “Assessment of Pension Liabilities Disclosures” as realised in the GAD model has been followed in order to satisfy the disclosure requirements of the Code.

The Chief Constable has powers to make awards to Police Officers who have ceased to be members of the police force and are permanently disabled as a result of an injury received without his/her own default in the execution of his/her duty. These payments are made in accordance with the Police (Injury Benefit) Regulations 2006.

The triennial valuation of the Local Government Pension Scheme took place during 2019/20 and the effects of this have been reflected in the changes to the figures by the scheme’s actuaries, Hymans Ltd, in preparing their report for 31 March 2020. Further information can be found in Note 35.

viii. Jointly Controlled Operations and Jointly Controlled Assets

Statement of Accounting Policies

Jointly controlled operations are activities undertaken by the PCC and / or Chief Constable in conjunction with other ventures or organisations that involve the use of the assets and resources of the ventures rather than the establishment of a separate entity. The Group recognises on its Balance Sheet the assets (Property, ICT and Vehicles) that it controls or its share thereof. Joint assets give rise to benefits of the joint venturers. The Group also recognises the liabilities that it incurs. The CIES is debited and credited with the expenditure it incurs and the share of costs incurred or income earned through the joint operation.

A full explanation of the treatment of transactions and balances under the Alliance has been explained fully in Note 10 to the Accounts 'Pooled Budgets and Joint Operations'.

ix. Leases

Rentals paid under operating leases are charged to the CIES as an expense of the services benefiting from use of the leased property, plant or equipment. Charges are made on a straight-line basis from the commencement of the lease term over the life of the lease; even if this does not match the pattern of payments (e.g. there is a rent free period at the inception of the lease).

x. Segmental Analysis

Income and Expenditure is reported in the CIES on the basis of the Chief Constable's organisational structure. This requirement arose from CIPFA's "Telling the Story" review that revised the presentation of Public Sector financial statements so that the CIES reflects the way that organisations operate and manage services. The Chief Constable monitors and manages its financial performance on the basis of a single segment, Policing Services, to reflect this distinct service area. The costs of overheads and support services are charged to the segment on the same basis as they are reported in the financial performance reports. That is, the costs fall in the segment that is responsible for the support service and that directly monitors and manages that service.

The Expenditure and Funding Analysis (EFA) emanated from the Telling the Story review and brings together local authority performance reported on the basis of expenditure measured under proper accounting practices (including depreciation and the value of pension benefits earned by the employees) with statutorily defined charges to the Police Fund. The EFA reconciles the net expenditure chargeable to council tax to the CIES, analysed by service segment and thereby provides a direct link between the CIES and the budget i.e. the Police Fund.

xi. Prior Year Adjustments

Prior year adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes are applied retrospectively (unless otherwise stated) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

xii. Provisions, Contingent Liabilities and Contingent Assets

Provisions are made where an event has taken place that gives the Chief Constable a legal or constructive obligation that probably requires settlement by a transfer of economic

Statement of Accounting Policies

benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Chief Constable may be involved in a court case that could eventually result in the making of a settlement of the payment of compensation.

Provisions are charged as an expense to the Cost of Services in the CIES in the year that the Group becomes aware of the obligation, and are measured at the best estimate as at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year and where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made); the provision is reversed and credited back to the Cost of Services.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income if it is virtually certain that reimbursement will be received if the Chief Constable settles the obligation.

A contingent liability or a contingent asset arises where an event has taken place that gives the Chief Constable a possible obligation or asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Chief Constable. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. Contingent liabilities and contingent assets are not recognised in the Balance Sheet but disclosed in Note 18 to the Accounts.

xiii. Reserves

The Chief Constable does not hold any usable reserves as all such reserves are retained by the PCC.

Unusable reserves are held by the Chief Constable to manage the accounting processes for retirement and employee benefits and do not represent usable resources for the Chief Constable. These reserves are explained in the relevant disclosure notes to the accounts.

xiv. Value Added Tax

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

Statement of Responsibilities

Responsibilities of the Chief Constable of Warwickshire Police

The Chief Constable is required to:

- Make arrangements for the proper administration of the Chief Constable's financial affairs and to ensure that one of his officers has the responsibility for the administration of those affairs. In this organisation that officer is the Chief Finance Officer to the Chief Constable;
- Manage the Chief Constable's affairs to secure economic, efficient and effective use of resources and safeguard the Chief Constable's assets;
- Approve the Statement of Accounts.

I accept the above responsibilities and approve these Statement of Accounts for 2019/20.

Martin Jelley
The Chief Constable of Warwickshire Police

Date: 30th November 2020

Responsibilities of the Chief Finance Officer

The Chief Finance Officer to the Chief Constable is responsible for the preparation of Chief Constable's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (the Code).

In preparing this Statement of Accounts, the Chief Finance Officer to the Chief Constable has:

- Selected suitable accounting policies and applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the Code.

The Chief Finance Officer has also:

- Kept proper accounting records which were up to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

The Statement of Accounts for the Chief Constable of Warwickshire Police is duly authorised for issue on 30 November 2020 by authority of the Chief Finance Officer to the Chief Constable.

I certify that the Statement of Accounts represents a true and fair view of the financial position of the Chief Constable of Warwickshire Police at the accounting date and of the income and expenditure for the year ended 31 March 2020.

Jeff Carruthers
Chief Finance Officer to the Chief Constable of Warwickshire Police
Date: 30th November 2020

Independent auditor's report to the Chief Constable of Warwickshire Police Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of the Chief Constable of Warwickshire Police (the 'Chief Constable') for the year ended 31 March 2020 which comprise the Comprehensive Income and Expenditure Statement, the Movement in Reserves Statement, the Balance Sheet, the Cash Flow Statement and the notes to the financial statements, including the summary of significant accounting policies on pages 30 to 36, and include the police pension fund financial statements comprising the Police Pension Fund Account and the Notes to the Police Pension Fund Account. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2019/20.

In our opinion, the financial statements:

- give a true and fair view of the financial position of the Chief Constable as at 31 March 2020 and of its expenditure and income for the year then ended;
- have been properly prepared in accordance with the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2019/20; and
- have been prepared in accordance with the requirements of the Local Audit and Accountability Act 2014.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the 'Auditor's responsibilities for the audit of the financial statements' section of our report. We are independent of the Chief Constable in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

The impact of macro-economic uncertainties on our audit

Our audit of the financial statements requires us to obtain an understanding of all relevant uncertainties, including those arising as a consequence of the effects of macro-economic uncertainties such as Covid-19 and Brexit. All audits assess and challenge the reasonableness of estimates made by the Chief Financial Officer and the related disclosures and the appropriateness of the going concern basis of preparation of the financial statements. All of these depend on assessments of the future economic environment and the Chief Constable's future operational arrangements.

Covid-19 and Brexit are amongst the most significant economic events currently faced by the UK, and at the date of this report their effects are subject to unprecedented levels of uncertainty, with the full range of possible outcomes and their impacts unknown. We applied a standardised firm-wide approach in response to these uncertainties when assessing the Chief Constable's future operational arrangements. However, no audit should be expected to predict the unknowable factors or all possible future implications for an authority associated with these particular events.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the Chief Financial Officer's use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the Chief Financial Officer has not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the Chief Constable's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

In our evaluation of the Chief Financial Officer's conclusions, and in accordance with the expectation set out within the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2019/20 that the Chief Constable's financial statements shall be prepared on a going concern basis, we considered the risks associated with the Chief Constable's operating activities, including effects arising from macro-economic uncertainties such as Covid-19 and Brexit. We analysed how those risks might affect the Chief Constable's financial resources or ability to continue operations over the period of at least twelve months from the date when the financial statements are authorised for issue. In accordance with the above, we have nothing to report in these respects.

However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Chief Constable will continue in operation.

Financial Statements

Emphasis of Matter – effects of Covid-19 on the valuation of land and buildings

We draw attention to Note 20 of the financial statements, which describes the effects of the Covid-19 pandemic on the valuation of pooled property funds, held by the Warwickshire Pension Fund, as at 31 March 2020. As, disclosed in Note 20 to the financial statements, as a result of the coronavirus pandemic, the valuation of these funds have therefore been reported on the basis of “material valuation uncertainty” as set out in Valuation Practice Guidance Application (VGPA) 10 of the Royal Institute of Chartered Surveyors’ Global Valuation Standards. Therefore the value of units may vary somewhat from the valuations in the accounts. Our opinion is not modified in respect of this matter.

Other information

The Chief Financial Officer is responsible for the other information. The other information comprises the information included in the Statement of Accounts and the Annual Governance Statement, other than the financial statements and our auditor’s report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge of the Chief Constable obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Other information we are required to report on by exception under the Code of Audit Practice

Under the Code of Audit Practice published by the National Audit Office on behalf of the Comptroller and Auditor General (the Code of Audit Practice) we are required to consider whether the Annual Governance Statement does not comply with the ‘delivering good governance in Local Government Framework 2016 Edition’ published by CIPFA and SOLACE or is misleading or inconsistent with the information of which we are aware from our audit. We are not required to consider whether the Annual Governance Statement addresses all risks and controls or that risks are satisfactorily addressed by internal controls.

We have nothing to report in this regard.

Opinion on other matter required by the Code of Audit Practice

In our opinion, based on the work undertaken in the course of the audit of the financial statements and our knowledge of the Chief Constable gained through our work in relation to the Chief Constable’s arrangements for securing economy, efficiency and effectiveness in its use of resources, the other information published together with the financial statements in the Statement of Accounts and the Annual Governance Statement for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

Under the Code of Audit Practice, we are required to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make a written recommendation to the Chief Constable under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014, in the course of, or at the conclusion of the audit.

We have nothing to report in respect of the above matters.

Responsibilities of the Chief Constable and the Chief Financial Officer for the financial statements

As explained more fully in the Statement of Responsibilities set out on page 37, the Chief Constable is required to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. That officer is the Chief Financial Officer. The Chief Financial Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC code of practice on local authority accounting in the United Kingdom 2019/20, for being satisfied that they give a true and fair view, and for such internal control as the Chief Financial Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Financial Officer is responsible for assessing the Chief Constable’s ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the

Financial Statements

going concern basis of accounting unless there is an intention by government that the services provided by the Chief Constable will no longer be provided.

The Chief Constable is Those Charged with Governance. Those charged with governance are responsible for overseeing the financial reporting process.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Report on other legal and regulatory requirements - Conclusion on the Chief Constable's arrangements for securing economy, efficiency and effectiveness in its use of resources

Conclusion

On the basis of our work, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in April 2020, we are satisfied that the Chief Constable put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

Responsibilities of the Chief Constable

The Chief Constable is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources, to ensure proper stewardship and governance, and to review regularly the adequacy and effectiveness of these arrangements.

Auditor's responsibilities for the review of the Chief Constable's arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to be satisfied that the Chief Constable has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Chief Constable's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance on the specified criterion issued by the Comptroller and Auditor General in April 2020, as to whether in all significant respects the Chief Constable had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people. The Comptroller and Auditor General determined this criterion as that necessary for us to consider under the Code of Audit Practice in satisfying ourselves whether the Chief Constable put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

We planned our work in accordance with the Code of Audit Practice. Based on our risk assessment, we undertook such work as we considered necessary to be satisfied that the Chief Constable has put in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Report on other legal and regulatory requirements - Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice until we have completed the work necessary to issue our Whole of Government Accounts (WGA) Component Assurance statement for the Warwickshire Police and Crime Commissioner and Chief Constable for the year ended 31 March 2020. We are satisfied that this work does not have a material effect on the financial statements or on our conclusion on the Chief Constable's arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2020.

Use of our report

This report is made solely to the Chief Constable, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 43 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Chief Constable those matters we are required to state to the Chief Constable in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Chief Constable as a body, for our audit work, for this report, or for the opinions we have formed.

Financial Statements

Comprehensive Income and Expenditure Statement (CIES)

This Statement recognises the financial resources belonging to the PCC consumed at the request of the Chief Constable in exercising day to day direction and control of the police force for the financial year, presented in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. The CIES includes the intra-group transfer, whereby the PCC provides resources to meet the cost of day to day policing provided by the Chief Constable.

2018/19 Gross Expenditure £000	2018/19 Gross Income £000	2018/19 Net Expenditure £000			2019/20 Gross Expenditure £000	2019/20 Gross Income £000	2019/20 Net Expenditure £000
159,614	0	158,614	Policing Services		128,568	0	128,568
158,614	0	158,614	Cost of Policing Services	1	128,568	0	128,568

		31,729	Other Comprehensive Income & Expenditure				(111,321)
		98,256	Total Comprehensive Income & Expenditure				(83,307)

Movement in Reserves Statement (MIRS)

This statement shows the movement in the year on the different reserves held by the Chief Constable, analysed into Usable Reserves (ie those that can be applied to fund expenditure or reduce local taxation) and other reserves. The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Group's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. This is different to the statutory amounts charged to the General Fund Balance for council tax setting purposes. The Net (Increase)/Decrease before Transfers to Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves undertaken by the Chief Constable.

	Notes	Police Fund Balance	Unusable Reserves	Total Chief Constable Reserves

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Chief Constable. The Chief Constable holds employment liabilities, which is associated with the Chief Constable's day-to-day direction and control of police officers and police staff, the costs of which are shown in the CIES. The net liabilities are matched by an unusable reserve held at the bottom of the balance sheet.

The Statement of Accounts were authorised for issue on 30 November 2020.

Chief Finance Officer to the Chief Constable of Warwickshire Police

Cash Flow Statement

This statement shows the changes in cash and cash equivalents of the Chief Constable during the reporting period. The statement shows how the Chief Constable generates and uses cash and cash equivalents by classifying cash flows as; operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Chief Constable are funded by the PCC.

2018/19 £000		Notes	2019/20 £000
66,527	Net (surplus) or deficit on the provision of services		28,014
(66,527)	Adjustments to net (surplus) or deficit on the provision of services for non-cash movements	7, 20	(28,014)
0	Adjustments for items included in the net (surplus) or deficit on the provision of services that are investing and financing activities		0
0	Net cash flows from Operating Activities		0
0	Investing Activities		0
0	Net increase or decrease in cash and cash equivalents		0
0	Cash and cash equivalents at the beginning of the reporting period		0
	Cash and cash equivalents at the end of the reporting period		

Notes to the Financial Statements

The following notes contain information which is in addition to that contained in the main financial statements, and is intended to provide a fuller explanation and description of specific figures to aid the reader's understanding of the Statement of Accounts.

1. Expenditure and Funding Analysis (EFA)

This Statement shows how annual expenditure is used and funded from resources by the Chief Constable in comparison with those resources consumed or earned by the Chief Constable in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the Chief Constable's service areas. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the CIES.

	2019/20 Net Expenditure Chargeable to the Police Fund Balances £000	2019/20 Adjustments between the Funding and Accounting Basis £000	2019/20 Net Expenditure in the CIES £000
Policing Services	113,186	15,382	128,568
Net Cost of Policing Services	113,186	15,382	128,568
Funding from the PCC	(113,186)	(1,005)	(114,191)
Other income and expenditure	0	13,637	13,637
(Surplus) or deficit on provision of Services	0	28,014	28,014

Closing Police Fund at 31 March 2019	0

Notes to the Financial Statements

1(a) Note to the EFA

Adjustments between Funding and Accounting Basis

2019/20					
Adjustments from Police Fund to arrive at the CIES amounts	Adjustments for Capital Purposes (note i)	Net Change for the Pensions Adjustments (note ii)	Financing and Investment Adjustments (note iii)	Other Adjustments (note iv)	Total Adjustments
	£000	£000	£000	£000	£000
Policing Services	1,577	14,099	(600)	306	15,382
<i>Net Cost of Services</i>	1,577	14,099	(600)	306	15,382
Funding from the PCC	(1,577)	0	600	(28)	(1,005)
Other income and expenditure from the Funding Analysis	0	13,638	0	(1)	13,637
Difference between Police Fund surplus or deficit and CIES surplus or deficit	0	31,091	0	277	28,014

2018/19					
Adjustments from Police Fund to arrive at the CIES amounts	Adjustments for Capital Purposes (note i)	Net Change for the Pensions Adjustments (note ii)	Financing and Investment Adjustments (note iii)	Other Adjustments (note iv)	Total Adjustments
	£000	£000	£000	£000	£000
Policing Services	3,859	55,736	(644)	246	59,197
<i>Net Cost of Services</i>	3,859	55,736	(644)	246	59,197
Funding from the PCC	(3,859)	0	644	0	(3,215)
Other income and expenditure from the Funding Analysis	0	10,545	0	0	10,545
Difference between Police Fund surplus or deficit and CIES surplus or deficit	0	66,281	0	246	66,527

Note (i) Adjustments for Capital Purposes

This column adds in depreciation and amortisation in the services line. MRP and other revenue contributions to capital expenditure are deducted because they are not chargeable under generally accepted accounting practices.

Notes to the Financial Statements**Note (ii) Net Change for Pensions Adjustments**

This column reflects the net change for the removal of pension contributions and the addition of IAS19 Employee Benefits pension related expenditure and income:

- For services this represents the removal of the employer pension contributions made by the Group as allowed by statute and the replacement with current service costs and past service costs;
- For Financing and investment income and expenditure – the net interest on the defined benefit liability is charged to the CIES.

Note (iii) Financing and Investment Income and Expenditure Adjustments – this column adjusts for borrowing costs that are charged to the Police Fund but are not included in the Net Costs of Policing Services.

Note (iv) Other Adjustments – this column reflects timing differences relating to accruing for compensated absences earned but not taken in the year (absorbed by the Accumulated Absences Account).

1(b) Expenditure and Income Analysed by Nature

2018/19 £000		2019/20 £000
46,889	Police officers pay	53,165
27,330	Police staff pay	30,354
1,380	Police pensions	1,480
962	Other Employee Expenses	1,268
23,294	Pensions current cost of service	33,191
(11,570)	Cost of pensions based on cash flows	(14,807)
246	Accumulated absences	277
21,199	Other service expenditure	23,030
44,012	Non distributed costs	(4,285)
5,615	Depreciation, Amortisation, Revaluation Loss and REFCUS	5,608
(743)	Capital Charge between PCC and Chief Constable - net	(713)
27,926	Net interest on the net defined benefit liability	29,273
186,540	Total Expenditure	157,841
(102,632)	Funding from the PCC for financial resources consumed	(114,191)
(17,381)	Government grants and contributions	(15,636)
(120,013)	Total Income	(129,827)
66,527	Deficit on the Provision of services	(28,014)

2. Accounting Standards That Have Been Issued But Have Not Yet Been Adopted

The Code requires the Group to disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued but not yet adopted by the Code for the relevant financial year. The Standards are as follows:

- Amendments to IAS 28 Investments in Associates and Joint Ventures: Long-term Interests in Associates and Joint Ventures
- Annual Improvements to IFRS Standards 2015 - 2017 Cycle
- Amendments to IAS 19 Employee Benefits: Plan Amendment, Curtailment or Settlement

None of the above are expected to have a material impact on the Accounts of the Group. The implementation of IFRS 16 – Leases for Public Sector Accounts has again been deferred, this time due to Covid-19, until 1 April 2021 we will need to assess the impact of this new Standard in the 2020/21 accounts, but there is no requirement to consider this in the 2019/20 Accounts.

3. Critical Judgements in Applying Accounting Policies

The financial statements are prepared using the accounting policies set out in the earlier section; however the Chief Constable is required to exercise judgement and make estimates and assumptions, based on a range of factors including experience or expert valuation, which affects the application of these policies and the value of transactions and balances reported in the financial statements. This is often the case where there are complex transactions or uncertainty about future events and/or figures are not readily available from another source. The estimates and assumptions are kept under review and revisions, where appropriate, are recognised in the period in which they are made. The critical judgements that have a material impact on the Accounts are as follows:

PCC and Chief Constable Group Relationship

The Police Reform and Social Responsibility Act 2011 came into effect on 22 November 2012, creating two corporation soles: The Police and Crime Commissioner for Warwickshire (PCC) and the Chief Constable of Warwickshire Police (CC).

The allocation of transactions and balances between the PCC and the CC affects the values reported in the two entities' Accounts. The allocation of transactions and balances is a judgement in light of the legislation, accounting standards and the substance of the local arrangements that are in place rather than the legal form underpinning the arrangements. The treatment of the Group, consisting of the PCC and CC, and the Alliance which also includes the PCC and Chief Constable for West Mercia has to be considered jointly.

The approach taken to the accounts is that:

- Revenue expenditure directly relating to those budgets delegated to the CC for the provision of policing services is predominantly included within his Accounts;
- The CC's accounts have been charged with the expense associated with IAS19 pensions and accumulated staff absences as well as the fair value of non-current assets consumed during the year and the CC's Balance Sheet contains the net liabilities associated with these items offset by unusable reserves as required by the Code of Practice;

Notes to the Financial Statements

- An intra-group transfer has been made between the CC's and the PCC's CIES offsetting the above expenses;
- Within the Group accounts, where material, a distinction is made between the transactions and balances of the Group and the PCC;
- The Chief Constable's Balance Sheet contains employment-related debtors, creditors and provisions together with all inventories.

Alliance

The allocation of transactions and balances between partners within the Alliance also affects the values reported in the two entities' respective Accounts.

Judgements taken in the application of accounting policies and the allocation of transactions and balances in the Accounts in respect of the Alliance are consistent to those taken in regard to the Group (PCC and CC) and comply with the requirements of the Code. Integral to this judgement is the financial arrangements for the Alliance as set out in the Section 22 Agreement and the cost sharing model. The economic reality of the Alliance cost sharing model takes precedence over the Group in many respects and has been influential in determining the treatment of transactions and balances in the Group Accounts in line with accounting policies and our interpretations of the Code.

A judgement, which is fundamental to the cost sharing model, is that costs and benefits relating to the Alliance are apportioned 69% to West Mercia and 31% to Warwickshire. This has been arrived at by looking at various indicators including funding, demographics, work force profile, expenditure, crime volumes etc. and has been widely consulted on and independently validated. This judgement was reviewed during 2019/20 and was deemed to still be appropriate for 2019/20. As explained in the Narrative Report, the strategic alliance terminated with effect from March 2020, and a Legal Settlement was reached between both Forces.

Cost of Service – Comprehensive Income and Expenditure Statement

As explained in the Accounting Policies, income and expenditure is categorised into one segment: Policing Services, as this is how the organisation monitors and manages its financial performance. Support service costs are reported as part of the services where they are monitored and managed.

The Net Cost of Policing Services has remained at a similar level compared to 2018/19, mainly due to fluctuations between years relating to the valuations of property assets and pensions costs, offset by a lower use of reserves to fund expenditure as explained in the Narrative Statement.

Funding

As explained in the Narrative Statement, there is a high degree of uncertainty around future funding from the Government received through the funding formula. This has been accommodated in the MTFP and is addressed through the requirement to make savings.

4. Assumptions Made About the Future and Other Major Sources of Estimation and Uncertainty

The Accounts contain estimated figures that are based on judgements and assumptions made by the Chief Constable about the future or that are otherwise uncertain. However, because balances cannot be determined with certainty, actual results could be materially different from those that have been estimated. The items in the Balance Sheet at 31 March 2019 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Post-Employment Benefits (Pension Liability)

Estimation of the pension liability depends on a number of complex judgements and assumptions relating to the discount rate, the future value of the assets and liabilities of the Police Pension Schemes (PPS) and Local Government Pension Scheme (LGPS), the rate of increase in pay, changes in retirement ages and mortality rates. Two actuaries are engaged to provide the PCC and the Chief Constable with expert advice and illustrations about the impact of the changes in assumptions to be applied to the pension schemes, and these are set out in Note 20.

The assumptions used to value the pension assets and liabilities are reviewed annually when the actuaries prepare the figures for inclusion in the Accounts. They will vary year on year based on experience and changes to the pension schemes e.g. scheme profiles and the most appropriate inflation index. A variance in the assumptions compared to reality can produce material changes to the assets and liabilities of the pension schemes. The actuary produces sensitivity analysis to show the impact of a plus or minus 1% variation in key assumptions. The impact of these changes is dampened by the fact that only employer contributions, the cost of ill health retirements and injury awards are charged against the General Fund. The impact on the employer's contributions is smoothed over time by the valuation of the schemes, which is undertaken every three years.

Employee Benefits

With the exception of leave built up through flexible working hours the majority of the hours required to calculate the accrued annual leave and toil are taken directly from the HR and Duty Management system. The flexi hours are calculated by extrapolating a sample of police staff. A cost is applied to the hours to calculate the employee benefit accrual using average salary cost per rank based on the data held in the payroll. This is the most significant estimate used to affect the accruals.

5. Material Items of Income and Expenditure

The re-measurement of the net defined benefit liability in the Other Comprehensive Income and Expenditure section of the CIES is a gain of £111.358m, compared to a loss of £31.697.1m in 2018/19. The loss is due to relatively small changes in the rates used by the actuaries for discounting scheme liabilities and other minor changes in assumptions. Past service costs amounting to £4.285m are included within Cost of Policing Services in the CIES, as explained in Notes 6 and 20. Overall, the Pensions Liability held on the Balance Sheet, has decreased by £83.584m to £1,109.951m at 31 March 2020. Further information regarding the Pensions Liabilities can be found in Note 20.

6. Events After the Reporting Period

Notes to the Financial Statements

The Statement of Accounts were authorised for issue by the Chief Finance Officer to the Chief Constable on 31 July 2020. Events taking place after this date are not reflected in the financial statements or notes.

In March 2020 Worcestershire County Council gave notice of its intention to exit the joint operation known as Place Partnership Limited (PPL) effective from 1st April 2021. This is a single asset management company co-owned by West Mercia Police, Warwickshire Police, Worcestershire County Council and Hereford & Worcester Fire Authority. The remaining partners are considering their response.

On 23 March 2020 the UK entered a state of ‘lockdown’ in response to the Coronavirus outbreak. West Mercia Police has continued the majority of its operations throughout the lockdown period providing personal protective equipment to its officers and staff and applying social distancing within its estate. The impact of Coronavirus, although more prolonged has been dealt with under the force’s existing major incident protocols and is not expected to have any material impact on the force as a going concern.

Following the Supreme Court denying the government permission to appeal the Court of Appeal’s judgment in light of the McCloud pensions’ case, a consultation paper for the remedy of pensions for affected members was issued in July 2020 for discussion. The Force’s actuaries made estimates of the effect of the pensions’ remedy prior to this paper being released, and since there is no agreed remedy at this stage, the actuarial figures have been included in 2018/19 and 2019/20 figures in the financial statements.

Further information regarding this ruling is set out in Note 20 below.

7. Adjustments Between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Chief Constable in the year in accordance with proper accounting practice to resources that are specified by statutory provisions as being available to the Group to meet future capital and revenue expenditure.

2019/20	Police Fund Balance £000
Adjustments primarily involving the Pensions Reserve	
Pensions Costs (transferred to or from Pensions Reserve)	(27,737)
Adjustments involving the Accumulated Absences Account	
Holiday pay (transferred to the Accumulated Absences Account)	(277)
Total Adjustments	(28,014)

2018/19	Police Fund Balance £000
---------	-----------------------------

Notes to the Financial Statements

Adjustments primarily involving the Pensions Reserve	
Pensions Costs (transferred to or from Pensions Reserve)	(66,281)
Adjustments involving the Accumulated Absences Account	
Holiday pay (transferred to the Accumulated Absences Account)	(246)
Total Adjustments	(66,527)

8. Unusable Reserves

The Pensions Reserve and Accumulated Absences Reserves are held by the Chief Constable and all other unusable reserves are held by the PCC. Unusable reserves are consolidated in the Group Accounts. The Chief Constable's reserves can be summarised as follows:

31 March 2018 £000		31 March 2019 £000
1,193,535	Pension Reserve	1,109,951
1,835	Accumulated Absences Account	2,112
1,195,370	Total Unusable Reserves	1,112,063

(i) Pensions Reserve

Payments for the cost of post-employment benefits and the associated liability are shown in the Chief Constable's Accounts. The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Chief Constable Accounts for post-employment benefits in the CIES as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Chief Constable makes employers contributions to pension funds or eventually pays any pensions for which he is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Chief Constable has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits are due to be paid and that the PCC can continue to meet the liability in the Chief Constable's Accounts, which is made up as follows:

2018/19 £000		2019/20 £000
1,095,525	Balance as at 1 April	1,193,535
31,729	Re-measurement of the net defined benefit liability	(111,321)
95,232	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the CIES	58,179
(28,951)	Employer's pensions contributions and direct payments to pensioners payable in the year	(30,442)
1,193,535	Balance as at 31 March	1,109,951

(ii) Accumulated Absences Account

Notes to the Financial Statements

The cost of employment benefits and the associated Accumulated Absences liability is shown in the Chief Constable's Accounts. The Accumulated Absences Account absorbs the differences that would otherwise arise on the Police Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. time off in lieu carried forward at 31 March. Statutory arrangements require that the impact on the Police Fund Balance is neutralised by transfers to or from the Account.

2018/19			2019/20	
£000	£000		£000	£000
	1,589	Balance as at 1 April		
(1,589)		Cancellation of accrual made at the end of the preceding year	(1,835)	
1,835		Amount accrued at the end of the current year	2,112	
	246	Amount by which officer remuneration charged to the CIES on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements		277
	1,835	Balance as at 31 March		2,112

9. Intra-Group Funding Arrangements Between the PCC and the Chief Constable

The treatment of transactions and balances within the Group Accounts is set out in Note 3.

The Intra-Group funding arrangement is eliminated on consolidation of the Group Accounts, a treatment adopted for any transactions between the PCC and Chief Constable. The guarantee from the PCC in respect of the resources consumed by the Chief Constable in 2019/20 amounts to £114,191m (£102.632m in 2018/19). This has been re-presented in the CIES and is now included within the Net Cost of Policing Services, in line with current best practice for the preparation of Police Accounts.

The Balance Sheet includes an Intra-Group Creditor of £0.249m (£2.941m in 2018/19) being the net balance of funding not settled between the PCC and Chief Constable as at the 31 March; this relates mainly to the balance of Debtors and Creditors shown in each of the single-entity accounts as at this date.

The calculation of the Intra-Group funding is set out in the following table:

2018/19 £000		2019/20 £000
158,614	Chief Constable's Cost of Services	128,568
27,926	Interest on the net defined benefit liability	29,273
(17,381)	Home Office grant towards the cost of retirement	(15,636)
31,729	Re-measurement of the net defined benefit liability	(111,358)
200,888	Resources consumed	30,884
	Items removed through the MIRS:	
(98,010)	Movement in pensions liability	83,584
(246)	Movement in accumulated absences liability	(277)
102,632	Total resources consumed for the year by the Chief Constable and funded by the PCC	114,191

10. Pooled Budgets and Joint Operations

Alliance with West Mercia Police

Warwickshire Police and West Mercia Police currently operate in an 'Alliance' that provides an opportunity for the two neighbouring forces to work closely together and to share resources and assets. Each PCC retains strategic control and their own sovereignty, finances, estates and identity and each Chief Constable retains operational independency. From 1 April 2019, Local Policing has been "non-pooled" and will operate independently for each Force. The alliance itself ceased on 30 March 2020.

The Alliance policing model results in over 90% of all costs being pooled, as set out in the following table. Costs are shared across the entities in line with the cost sharing arrangements, Warwickshire 31%, West Mercia 69%. The governance arrangements and resulting treatment of transactions and balances is set out in Note 3.

2018/19 £000		2019/20 £000
(80,752)	Contribution from Warwickshire	(31,694)
(179,735)	Contribution from West Mercia	(70,556)
(260,487)	Total Funding provided to the Alliance	(102,250)
222,454	Pay and allowances	66,791
5,831	Transport costs	5,394
30,732	Supplies and services	29,498
9,425	Third party payments	9,124
(7,955)	Income	(8,557)
260,487	Total Expenditure (pooled)	102,250

Place Partnership Limited

Place Partnership Limited (PPL) is a single asset management company co-owned by Warwickshire Police, West Mercia Police, Worcestershire County Council, Hereford & Worcester Fire Authority, Redditch Borough Council and Worcester City Council that commenced business on 1 September 2015. Each party has equal shares and equal voting rights. PPL has been classified as a Joint Operation, because there is joint control and the arrangement is primarily to provide services to the parties within the parties' boundaries. With effect from 1 April 2019, Redditch Borough Council and Worcester City Council have ceased to be shareholders of PPL; Warwickshire's share of assets and liabilities (including pensions) will be revised in 2019/20 to reflect this change. In 2019/20, the operating costs for Warwickshire Police were £3.073m (£2.966m in 2018/19) and this is reflected in the CIES. PPL has not been fully consolidated into Warwickshire Police's Accounts as a Joint Operation, because there is no material difference to the costs already reflected.

Warwickshire Police's share of PPL's Local Government Pension Scheme assets and liabilities as at 31 March 2019 have been incorporated into the Accounts and are shown separately in the tables in Note 21. The actuaries assessed both the total assets and total liabilities relating to PPL as £33.666m as at 31 March 2020 (£34.385m as at 31 March 2019): a net liability of

Notes to the Financial Statements

zero. In assessing this position the actuaries have taken into account the guarantee that is in place between the partners and PPL to ensure that PPL's pension position is fully funded at inception and at the year end.

West Midlands Regional Organised Crime Unit

The West Midlands Regional Organised Crime Unit (WMROCU) is a collaboration between the police forces of Staffordshire, Warwickshire, West Midlands and West Mercia to fight organised crime across the region. The aim of WMROCU is to reduce the impact and increase the disruption of serious and organised crime within the region and beyond. West Midlands Police acts as the lead force for this joint arrangement and provides the financial management service for this unit.

The unit is funded in part by force contributions and also by grants from the Home Office and the National Cyber Security Programme (NCSP). The revenue account for this unit covers all operating costs. The details are as follows:

2018/19		2019/20
£000		£000
(13,475)	Contribution from West Midlands Police	(14,026)
(3,789)	Contribution from West Mercia Police	(3,783)
(3,681)	Contribution from Staffordshire Police	(3,675)
(1,840)	Contribution from Warwickshire Police	(1,837)
(2,399)	WMROCU Grant	(2,399)
(270)	National Cyber Security Programme funding	(270)
(165)	Regional Asset Recovery Team grant	(166)
(532)	ROCU Reserves	(693)
(1,784)	PTF Grants	(1,134)
(625)	Additional Home Office funding (grant provided at year end in 2018/19 and 2019/20) *	0
(28,560)	Total funding provided to the WMROCU	27,983
1,056	Regional Asset Recovery Team (RART)	995
165	RART – ACE team	195
645	Regional Cyber Crime Unit	637
315	Regional Fraud Team	288
927	Regional Prisons Intelligence Unit	922
943	UKPPS (protected Persons)	8

625	Additional Contribution to Reserves *	0

Notes to the Financial Statements

28,560	Total Expenditure	27,903
0	Total Net Expenditure	0

East Midlands Air Support Unit (EMASU) and National Police Air Service (NPAS)

The EMASU was a joint operation by the Chief Constables of Warwickshire, Northamptonshire and Leicestershire, the latter provided the financial administration service for this joint unit, with the three PCCs jointly owning the helicopter.

NPAS was set up by the Home Office with effect from 2 October 2012 with administration of the service being provided by the Chief Constable of West Yorkshire. The Warwickshire, Northamptonshire and Leicestershire helicopter was formally transferred to the new national service provider on 3 October 2013. NPAS does not constitute a jointly controlled operation and so the PCC only accounts for the expense of payments to NPAS amounting to £0.380m in 2019/20, (£0.306m in 2018/19) and not for a share of the assets or liabilities.

As part of the transfer arrangements, the PCC will receive an annual payment from NPAS to reflect the value of the air frame credits for the transferred helicopter. NPAS's liability to the PCC is shown in the PCC's balance sheet as a long term debtor of £0.077m and a short term debtor of £0.045m, representing the discounted value of future expected cash flows in 2019/20 and subsequent years. Future payments from NPAS will be offset against these debtors and an annual interest amount credited to the CIES.

The Northern Justice Centre and Southern Justice Centre

The Warwickshire Justice Centres are a multi-partner jointly controlled operation. Whilst no legal entity exists, the business of the Justice Centres is conducted through a separate Justice Centre Board, under a formal agreement. The partners to the agreement have joint control of operations; therefore the PCC for Warwickshire is not the sole beneficiary or controlling partner. The Chief Constable provides financial administration support to the Warwickshire Justice Centres Board.

Partners contribute to the running costs on the basis of floor area as follows:

Northern Justice Centre

- 45.6% Police
- 40.0% Her Majesty's Courts & Tribunals Service
- 10.4% Probation
- 3.8% Youth Justice Service
- 0.2% Victim Support

Southern Justice Centre

- 27.9% Police
- 56.9% Her Majesty's Courts & Tribunals Service
- 7.8% Probation
- 5.1% Crown Prosecution Service
- 2.3% Youth Justice Service

Notes to the Financial Statements

The operational costs, including building maintenance, for the Northern Justice and Southern Justice Centre are met from partner's contributions. A surplus or deficit on the Justice Centre Accounts is carried forward and taken into account in setting the following year's budget. Sinking funds exist for both Justice Centres to meet future building maintenance costs, these funds are ring fenced in their earmarked Reserves and do not form part of the Chief Constable, PCC or Group Accounts. The sinking funds are cash-backed Reserves and £3.957m (£3.711m as at 31 March 2019) relating to these reserves is invested by Warwickshire Police on behalf of the Justice Centres.

The assets of the two Justice Centres (land and buildings) are recorded in the PCC and Group Balance Sheet representing the PCC's control over these assets. The entire income and expenditure associated with operating the Warwickshire Justice Centres is set out in the following tables, however only the Chief Constable's share of this income and expenditure is included in the Chief Constable and Group financial statements.

Northern Justice Centre

2018/19 £000		2019/20 £000
	Income	
(1,354)	Contribution from partners	(1,495)
(65)	Other income	0
(1,419)	Total Income	(1,495)
	Expenditure	
48	Pay and Allowances	50
1,288	Premises	1,370
60	Supplies & Services	61
1,396	Total Expenditure	1,481
(23)	Net (Income) / Expenditure	(14)

Southern Justice Centre

2018/19 £000		2019/20 £000
	Income	
(2,985)	Contribution from partners	(3,043)
(26)	Other income	(45)
(3,011)	Total Income	(3,088)
	Expenditure	
72	Pay and Allowances	76
2,410	Premises	2,470
77	Supplies & Services	82
436	Capital Charges – loan repayment	435
2,995	Total Expenditure	3,063
(16)	Net (Income) / Expenditure	(25)

Notes to the Financial Statements

The reserves, including the sinking funds, for the Justice Centres do not form part of the Chief Constable's Accounts, they are shown here to present the complete picture of a significant partnership arrangement, which the PCC and Chief Constable are involved in:

RESERVE	Balance at 1 April 2018 £000	Transfers out 2018/19 £000	Transfers in 2018/19 £000	Balance at 31 March 2019 £000	Transfers out 2019/20 £000	Transfers in 2019/20 £000	Balance at 31 March 2020 £000
Sinking fund	(3,946)	43	(669)	(4,572)	121	(685)	(5,136)
General Reserve	(193)	65	(40)	(168)	34	(39)	(173)
TOTAL	(4,139)	108	(709)	(4,740)	155	(724)	(5,309)

11. Exit Packages

In order to make savings as part of the Medium Term Financial Plan it has been necessary to review how police services are delivered. As a result a number of exit packages have been approved during 2019/20. Exit packages include charges by the LGPS in respect of benefits paid before normal retirement age. There were no compromise agreements covering the 2019/20 exit packages. All of the employees left the organisation prior to 1 April 2019. The number of exit packages resulting from redundant posts with total cost per band is set out in the table:

Exit Package cost band (including special payments)	Number of Exit Packages		Total cost of Exit Packages in each band	
	2018/19	2019/20	2018/19 £000	2019/20 £000
£0 - £20,000	2	2	20	43
£20,001 - £40,000	1	0	38	0
£60,001 - £80,000	0	0	0	0
£100,000 - £150,000	0	0	0	0
£150,000 +	1	1	264	247
Total	4	3	322	290

12. Officers' Remuneration

Regulation 7(3) of the Accounts and Audit Regulations 2015 sets out the information to be disclosed to increase transparency and accountability in Local Government for reporting remuneration of senior employees and senior police officers. Remuneration includes all sums paid to or receivable by an employee and expense allowance chargeable to tax, including non-cash benefits in kind. The relevant remuneration information is as follows:

Senior Officer and Relevant Police Officer Emoluments:

The Chief Constable of Warwickshire Police Statement of Accounts 2019/20

Officer – Note C	2018/19	0	0	0	0	0	0	0	0
------------------	---------	---	---	---	---	---	---	---	---

Notes

1	CC Started in post 1 April 2015
2	DCC Retired 10 August 2018
3	DCC became substantive 11 Sept 2018 after a short period Acting up.
4	ACC became substantive from 6 May 2019
5	ACC Acted up from 13 August 2018 till 20/4/2020 when the post holder became substantive.
6	Left 5 October 2018 following redundancy
7	Left 5 May 2019
8	Following the removal of the Director of Finance post on 28 February 2018, the Acting Chief Finance Officer (section 151 Officer) commenced in this new post on 1 March 2018; the post holder was appointed permanently on 30 May 2018. The Director of Finance was employed by West Mercia with the costs being shown in the West Mercia Group and Chief Constable Accounts
9	Started in post 9 October 2019
A	Following the PCC elections on 7 May 2016, the PCC commenced in office on 12 May 2016.
B	The Deputy PCC commenced in post on 21 July 2016
C	The Treasurer to the PCC Started in post 9 October 2019
*	Under the Alliance agreement the costs of Assistant Chief Constables from West Mercia Police and Warwickshire Police (including Transformation Director, Chief Finance Officer and Director of Enabling Services) are pooled and the expenditure is shared between the two forces on the basis of 31% Warwickshire and 69% West Mercia. The Chief Constable and Deputy Chief Constable costs are not shared.
**	Treasurer in the PCC office costs were shared 50:50 between Warwickshire & West Mercia Police during 2018/19 and the first part of 2019/20. During the separation of the alliance a new Treasurer was appointed on 9 th October 2019, the previous Treasurer remains at West Mercia Police and started in post 17/08/2015.

Senior police officers and police staff receiving more than £50,000 remuneration for the year (excluding employer's pension contributions) and including Senior Officers listed above were paid the following amounts:

Number of Employees	Remuneration Band	Number of Employees
2018/19		2019/20
54	£50,000 - £54,999	82
31	£55,000 - £59,999	45
8	£60,000 - £64,999	9
3	£65,000 - £69,999	4
0	£70,000 - £74,999	4
6	£75,000 - £79,999	2
3	£80,000 - £84,999	5
3	£85,000 - £89,999	4
0	£100,000 - £104,999	1
1	£110,000 – £114,999	0
1	£115,000 - £119,999	1
0	£140,000 - £144,999	1
1	£155,000 - £159,999	0
111	Total	158

13. External Audit Costs

	2018/19	2019/20
	£000	£000
Chief Constable	11,550	10,150
PCC	23,897	35,397
Total for the Group	35,447	45,547

Grant Thornton provided no non-audit services during the year (nil in 2018/19).

14. Related Parties

The PCC and the Chief Constable are intrinsically related. The PCC empowers the Chief Constable through the scheme of delegation and provides funding to meet expenditure incurred by the Chief Constable on behalf of the PCC. A full explanation of this relationship is set out in Note 3 to the Accounts.

The Chief Constable is required to disclose material transactions with related parties; bodies or individuals that have the potential to control or influence the Chief Constable or to be controlled or influenced by the Chief Constable. Disclosure of these transactions allows readers to assess the extent to which the Chief Constable might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain or deal freely with the Chief Constable.

Central government has significant influence over the general operations of the Chief Constable. It is responsible for providing the statutory framework within which the Chief Constable operates. The PCC has direct control over the Group's finances, including making crime and disorder reduction grants and is responsible for setting the Police and Crime Plan. The Chief Constable retains operational independence and operates within the budget set by the PCC, to deliver the aims and objectives set out in the Police and Crime Plan.

Warwickshire County Council administer the LGPS and provide Legal Services and Internal Audit services to the Group. Worcestershire County Council provide payroll services to the Group and the administration of the police pension schemes is provided by XPS Administration (Kier Pensions Unit was purchased by XPS Group on 1 November 2018).

The PCC and Chief Constable participate in various partnerships with a range of public bodies, the most significant of which is the Alliance under a Section 22 Agreement with West Mercia Police. Details of the transactions with other public bodies participating in joint arrangements are set out in Note 11 to the Accounts.

The Alliance with West Mercia Police involves a cross-charge in and cross-charge out in 2019/20 of £19.1m (£48.6m in 2018/19) and £10.4m (£39.4m in 2018/19) respectively as shown in the table below.

As explained in Note 11, Place Partnership Limited (PPL) is a single asset management company co-owned by Warwickshire Police, West Mercia Police, Worcestershire County Council, Hereford & Worcester Fire Authority, Redditch Borough Council and Worcester City Council that commenced business on 1 September 2015. Each party holds two shares of £1

Notes to the Financial Statements

each; the PCC and the Chief Constable each hold one share of Warwickshire Police's shares. The PCC and Chief Constable receive no remuneration from PPL. The Director of Enabling Services was a Director of PPL until leaving the organisation on 5 October 2019; he received no benefit or remuneration.

The following table shows the extent of the expenditure and income with other local authorities and police forces.

	Expenditure £000	Income £000
West Mercia Police Strategic Alliance S23 Agreement cross-charges	19,105	(10,350)
Local Authorities in the Policing Area	2,994	(23)
Other Local Authorities	0	(2)
Seconded Police Officers	0	(402)
Other Police Forces	2,331	(353)
Place Partnership Limited	3,530	0
Total	27,975	(11,130)

There are no related party transactions for the Chief Constable other than those set out above, which require adjustment of or disclosure in the financial statements or the accompanying notes.

15. Debtors

This note shows money owed to the Chief Constable for funding and services provided on or before 31 March 2020 where the money has not been received by this date.

Restated 31 March 2019 £000		31 March 2020 £000
0	Trade Receivables	0
0	Prepayments (2018/19 includes April Police Pensions payment £1.7m made in March 2018)	0
4,002	Other Receivables (including balance of Police Pensions Top-up Grant)	2,572
4,002	Total Debtors	2,572

16. Creditors

This note shows money owed by the Group and PCC for goods and services purchased and received on or before 31 March 2020 where the money has not been paid by this date.

31 March 2019 £000		31 March 2020 £000
0	Trade Payables	0
(2,896)	Other Payables	(4,386)
(2,896)	Total Creditors	(4,386)

Notes to the Financial Statements**17. Provisions, Contingent Assets and Contingent Liabilities**

A £49K provision was charged to the CIES in 2019/20 in respect of potential redundancies from the alliance which are likely to give rise to payments in the future.

18. Proceeds of Crime

The Act gives powers to the Police and Customs to seize cash derived from, or intended for use in crime, and to secure its forfeiture in civil magistrates' court proceedings. The PCC is currently holding cash totalling £0.272m.

19. Cash Flow Statement – Operating Activities

The Chief Constable does not hold a bank account and in order to balance the mandatory cash flow statement a non-cash movement is shown in respect of the sums required at the financial year end to finance the Chief Constable's share of external debtors, external creditors, provisions and the employment liability due to employees and the pensions accounts, as shown below.

2018/19 £000		2019/20 £000
1,125	(Increase)/decrease in revenue creditors & Provisions	(1,540)
(3,281)	Increase/(decrease) in revenue debtors	(1,429)
1,910	Movement in Intra-Group Funding	2,692
(66,281)	Movement in pension liability	(27,737)
(66,527)	Total – Group and PCC	28,014

20. Defined Benefit Pension Schemes

The costs and liabilities associated with retirement benefits are primarily recorded in the Chief Constable's Accounts.

Participation in Pension Schemes

As part of the terms and conditions of employment for police officers and other employees the Chief Constable makes contributions towards the cost of post-employment benefits (pensions). Although these benefits will not actually be payable until employees retire, the Chief Constable has a commitment to make the payments that need to be disclosed at the time that the employees earn their future entitlement, no matter when the actual financial cost is incurred.

The Chief Constable participates in two defined benefit pension schemes:

- the Local Government Pension Scheme (LGPS), for police staff and PCSOs, administered locally by Warwickshire County Council. This is a funded, defined benefit scheme, meaning that the Chief Constable and the employees pay contributions into a fund, calculated at a level intended to balance the pension liabilities with investment assets. With effect from 1 April 2014, the LGPS became a career average (CARE) scheme rather than a final salary scheme.

Notes to the Financial Statements

- the Police Pension Scheme 1987 (OPPS), the New Police Pension Scheme 2006 (NPPS) and the Police Pension Scheme 2015 (PPS) are administered by XPS Administration (Kier Pensions Unit was purchased by XPS Group on 1 November 2018). These are unfunded defined benefit final salary schemes, meaning that there are no investment assets built up to meet the pensions liabilities, and cash has to be generated to meet the actual pensions payments as they eventually fall due. The disclosures for the various Police Pension Schemes, including the Injury Awards Scheme, are consolidated in the notes below, as the rules of the schemes are not materially different. The income and expenditure incurred by the police pension schemes and how they are funded is summarised in the section covering the Police Pensions Fund Account.

The pension schemes above provide members with indexed-linked benefits, which are determined predominantly by the individual's pensionable salary and length of service. As part of the government's pension reforms, these schemes are undergoing significant changes in how they are funded and the benefits they offer. However, the purpose of this note is to explain the financial impact, in accordance with the Code, of the pension schemes, on the Accounts. Details of how the police pension schemes operate can be found on the Home Office website and details of how the LGPS operates can be found on the Warwickshire County Council website.

As explained in Note 15, Warwickshire's 4.3% share of PPL's LGPS assets and liabilities as at 31 March 2020 have been incorporated into the Accounts and are shown separately in the tables below. The actuaries assessed the total assets and liabilities relating to PPL as £33.666m as at 31 March 2020 (£34.385m as at 31 March 2019): a net liability of zero.

Discretionary post-retirement benefits on early retirement are an unfunded benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

McCloud / Sargeant Ruling - Police Pension Scheme 2015 (CARE scheme) Legal Challenge

The Chief Constable, along with other Chief Constables and the Home Office, currently has a number of claims in respect of unlawful discrimination arising from transitional provisions in the Police Pension Regulations 2015. These claims against the Police pension scheme (the Aarons case) had previously been stayed behind the McCloud / Sargeant judgement, but have now been lifted and a case management hearing was held on 25 October 2019. The resulting Order of 28 October 2019 included an interim declaration that the claimants are entitled to be treated as if they had been given full transitional protection and had remained in their existing scheme after 1 April 2015. This interim declaration applies to claimants only. However, the Government made clear that non-claimants who are in the same position as claimants will be treated fairly to ensure they do not lose out. This was re-iterated in the Written Ministerial Statement on 25 March 2020.

The Policing Minister has indicated that the remedy period will not end before 2022. The Treasury has begun a consultation process on proposals to implement a remedy and our pensions reports for Police and Staff have been revalued as at August/September 2020 respectively.

Notes to the Financial Statements

There is another legal case ongoing; the Goodwin case relates to survivor benefits in the Teachers' Pension Scheme. In that scheme, dependant benefits for a male spouse of a female member are based on service from 1988 and do not include service before 1988. This is being challenged in the legal case.

Home Office have advised our Police pensions' actuaries (who agree with this assessment) that due to the historic contribution and benefit structure in the 1987 Scheme they do not believe there is a similar situation in the Police Pension Scheme in England and Wales and therefore there is no requirement to allow for this legal challenge in our 2019/20 accounting disclosures.

This case relates to service that predates both the 2006 and 2015 schemes and so these will also not be impacted.

Our LGPS actuaries also do not believe we need to revise our 2019/20 pensions figures for this case as the spouse's benefits were estimated from member benefits for the purposes of our calculations for the Police and Fire Schemes and as the same approach was used to calculate both male and female survivors' pensions there is no discrimination impact to be assessed where survivor's benefits are not yet in payment. There will be a very small overall impact for members where the survivor's benefit is already in payment, but our actuaries would expect this to be immaterial relative to the liabilities overall. As such, they would suggest no specific allowance is made to estimate that impact.

Impact on pension liability

Allowing for all members to remain in their existing scheme as at 1 April 2015 would lead to an increase in the Police Pension Scheme liabilities. Scheme actuaries have estimated the potential increase in scheme liabilities for the force to be approximately £106m of pensions scheme liabilities. This increase was reflected in the IAS 19 disclosure as a past service cost in the 2018/19 accounts.

The impact of an increase in scheme liabilities arising from the McCloud / Sargeant judgement will be measured through the pension valuation process, which determines employer and employee contribution rates. The next Police Pension valuation is due to be reported in 2023/24, although this timetable is subject to change.

The impact of an increase in annual pension payments arising from McCloud / Sargeant is determined through the Police Pension Fund Regulations 2007. These require a police authority to maintain a police pension fund into which officer and employer contributions are paid and out of which pension payments to retired officers are made. If the police pension fund does not have sufficient funds to meet the cost of pensions in year the amount required to meet the deficit is then paid by the Secretary of State to the police authority in the form of a central government top-up grant.

Pooled Property valuations

Valuation techniques are used to determine the carrying amount of pooled property funds and directly held freehold property in relation to pensions' funds. As a result of the coronavirus pandemic, the valuation of these funds have therefore been reported on the basis of "material valuation uncertainty" as set out in Valuation Practice Guidance Application (VGPA) 10 of the Royal Institute of Chartered Surveyors' Global Valuation

Notes to the Financial Statements

Standards. Therefore the value of units may vary somewhat from the valuations in the accounts.

Compensation Claims

The employment tribunal has agreed a process for the consideration of compensation claims between April 2020 and January 2021. The basis of claims from claimants is due in April 2020 and the identity and banding of claims proposed by claimants is due in June 2020 for non-pecuniary claims and September 2020 for pecuniary claims. As at 31 March 2020, it is not possible to estimate the extent or likelihood of these claims being successful, and therefore no liability in respect of compensation claims is recognised in these accounts.

Transactions Relating to Post-Employment Benefits

The cost of retirement benefits is reported in the Cost of Services when they are earned by police officers, police staff and PCSOs, rather than when the benefits are eventually paid as pensions. However, the charge against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the Police Fund via the Group MIRS. The following transactions have been made in the Group CIES and the Police Fund via the MIRS during the year:

2019/20	LGPS £000	LGPS (PPL ele- ment) £000	Police Pension Schemes £000	Total £000
CIES				
Cost of Services:				
- current service costs	8,139	42	25,010	33,191
- past service costs and gain/loss from settlements	(797)	22	(3,510)	(4,285)
Financing and Investment Income and Expenditure				
- net interest expense	1,433	0	27,840	29,273

Notes to the Financial Statements

Curtailments	0	0	0	0
Closing balance 31 March	(161,520)	(1,326)	(1,135,360)	(1,298,206)

Reconciliation of the Movements in the Fair Value of the Scheme Assets for the Chief Constable and the Group

Reconciliation of fair value of the scheme assets (LGPS)	2018/19 £000	PPL element 2018/19 £000	Total 2018/19 £000	2019/20 £000	PPL element 2019/20 £000	Total 2019/20 £000
Opening balance at 1 April	95,117	1,190	96,307	103,345	1,326	104,671
Interest income	2,601	32	2,633	2,507	37	2,544
Re-measurement gain/loss: The return on plan assets, excluding the amount included in the net interest expense	3,049	94	3,143	(8,866)	(57)	(8,923)
Contributions by employer	3,593	26	3,619	3,702	24	3,726
Contributions from employees into the scheme	1,253	10	1,263	1,328	9	1,337
Benefits paid	(2,268)	(26)	(2,294)	(2,805)	(29)	(2,834)
Closing balance 31 March	103,345	1,326	104,671	99,211	1,310	100,521

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets. The Police Pension Scheme has no assets to cover its liabilities.

The net liabilities show the underlying commitments that the Chief Constable and the Group has, in the long run, to pay post-employment retirement benefits. However, statutory arrangements for funding the deficit mean that the financial position of the Chief Constable and the Group remains healthy. The deficit on the LGPS will be made good by increased contributions over the remaining working life of employees, (i.e. before payments fall due) as assessed by the scheme actuary. Finance is only required to be raised to cover police pensions when the pensions are actually paid.

The total contributions budgeted to be made to the LGPS by the Chief Constable in the year to 31 March 2021 is £4.354m. Expected contributions for the Police Pension Schemes by the Chief Constable in the year to 31 March 2021 are £10.794m.

Reconciliation of the Re-measurement of the Net Defined Benefit Liabilities for the Chief Constable and the Group

The analysis of the re-measurement of the net defined benefit liabilities for 2019/20 is shown in the table below. The two actuaries concerned have different approaches in providing their respective analyses and the table below is therefore a composite analysis.

Notes to the Financial Statements

2019/20	LGPS £000	LGPS (PPL element) £000	Police Pension Schemes £000	Total £000
Changes in financial assumptions	(20,525)	(97)	(43,024)	(63,646)
Changes in demographic assumptions	0	0	(34,240)	(34,240)
Return on plan assets	8,866	57	0	8,923
Experience gains and losses	(918)	0	(21,440)	(22,358)
Total re-measurement	(12,577)	(40)	(98,704)	(111,321)

2018/19	LGPS £000	LGPS (PPL element) £000	Police Pension Schemes £000	Total £000
Changes in financial assumptions	7,133	77	29,842	37,052
Changes in demographic assumptions	0	0	0	0
Return on plan assets	(3,049)	(94)	0	(3,143)
Experience gains and losses	0	0	(2,180)	(2,180)
Total re-measurement	4,084	(17)	27,662	31,729

LGPS Assets

The LGPS assets consist of the following categories, by proportion of the total assets held:

	Total 31 March 2019 £000	Split of Assets between Investment categories %	Total 31 March 2020 £000	Split of Assets between Investment categories %
Cash & Cash Equivalents	1,461	1	1,384	1
Equities	17,630	17	0	0
Investment Funds & Unit Trusts	67,696	66	83,375	84
Private Equity	5,260	5	4,748	5
Property	11,298	11	9,704	10
Total Assets	103,345	100	99,211	100

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit actuarial method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc. The assets and liabilities of the LGPS which is administered by Warwickshire County Council (County Council Fund) have been assessed by Hymans Robertson, an independent firm of actuaries, estimates for the County Council Fund being based on the latest full valuation of the scheme as at 31 March 2019, projected forward to 31 March 2020. The liabilities for the Police Pension Schemes have been assessed by the

Notes to the Financial Statements

Government Actuary's Department. The principal assumptions used by the actuaries have been:

2018/19			2019/20	
LGPS	Police Pension Schemes		LGPS	Police Pension Schemes
		Mortality assumptions		
		Longevity at 65 for current pensioners:		
21.6 years	22.7 years	Men	21.6 years	21.9 years
23.8 years	24.3 years	Women	23.8 years	23.6 years
		Longevity at 65 for future pensioners:		
22.5 years	24.6 years	Men	22.5 years	23.6 years
25.4 years	26.2 years	Women	25.4 years	25.2 years
2.35%	2.35%	Rate of CPI inflation	2.00%	2.00%
3.1%	4.35%	Rate of increase in salaries (long-term)	2.6%	4.00%
n/a	1.0%	Rate of increase in salaries (short-term)	n/a	1.00%
2.5%	2.35%	Rate of increase in pensions	1.8%	2.00%
2.4%	2.45%	Rate for discounting scheme liabilities	2.3%	2.25%
pre-April 2008 service: 50% post-April 2008 service: 75%	100%	Take-up of option to convert annual pension into retirement lump sum	pre-April 2008 service: 50% post-April 2008 service: 75%	100%

Life expectancy is based on the Self-Administered Pensions Scheme (SAPS) year of birth tables adjusted for specific characteristics of the membership of the two schemes.

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumptions analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Impact on the Defined Benefit Obligation in the Scheme	
	Increase in assumption	Decrease in assumption
	£000	£000
Longevity (increase or decrease in 1 year)	38,988	(38,988)
Rate of increase in salaries (increase or decrease by 1%)	25,485	(25,485)
Rate of increase in pensions (increase or decrease by 1%)	193,184	(193,184)
Rate for discounting scheme liabilities (increase or decrease by 1%)	238,956	(238,956)

Supplementary Financial Statement**Police Pension Fund Account**

The Chief Constable administers the Police Pension Fund Account (the Account) on behalf of the PCC; amounts debited and credited to the Account are specified by legislation, the Police Pension Fund Regulations 2007 [Statutory Instrument 2007 No 1932], (the Regulations). In relation to the Account the use of the word 'Fund' should not be taken to mean the Police Pension Scheme is a funded scheme, as there are no assets or investments associated with the Account to provide for future benefits. Instead the purpose of the Account is to provide a basis for demonstrating the balance of cash based transactions taking place over the year and for identifying the arrangements needed to balance the account for that year.

2018/19			2019/20	
£000	£000		£000	£000
		Contributions Receivable		
		From employer		
(6,082)		- Normal at 21.3% of pensionable pay (see below)	(10,058)

	(17,381)	Actual Home Office Top Up funding		(15,636)

Notes to the Police Pension Fund Account

The principles contained in the Regulations, which have been adopted in preparing the Account are as follows:

1. The Account collects the costs and income relating to retired police officers that are in receipt of pensions and income associated with serving police officers that are members of the Police Pension Scheme 1987 (OPPS), the New Police Pension Scheme 2006 (NPPS) or the Police Pension Scheme 2015 (PPS). There are certain exceptions to this arrangement, such as pensions payable under the Police Injury Pension Regulations, which are charged directly to the Cost of Services in the CIES;
2. The Account is prepared on an accruals basis with the exception of accounting for lump sum transfer values to and from other pension schemes. Due to the unpredictable nature of transfer values they have been attributed to or transferred from the Account on a payment and receipts basis;
3. The annual cost of police pensions is met, in part, by contributions from the employer and serving police officers and other minor sources of income. Under the Police Pension Fund Regulations 2007, if the Account is in deficit an amount equal to the deficit is transferred from the Police Fund to meet the deficit; the cost to the Police Fund is subsequently reimbursed by the Home Office by way of the Pensions Top-Up. Conversely, if the Account was to be in surplus, this would be transferred to the Police Fund and subsequently paid over to the Home Office;
4. The amounts due from the Home Office in respect of the shortfall on the Account is the responsibility of the Chief Constable and has therefore been included in the Chief Constable's (and the Group's) Balance Sheet;
5. This Account does not take account of long-term liabilities to pay future pension benefits after the year end, details of the Group's pension liability can be found in Note 20;
6. Employers' contributions, which are set by the Home Office subject to the Government Actuary's Department triennial valuation, are calculated at 21.3% of police officer pensionable pay from 1 April 2015. However, the difference between the old employer contribution rate of 24.2% and the new rate will be retained by the Exchequer, reducing Pensions Top Up as shown at the foot of the Pension Fund Account. In both years the force therefore budgeted as though there were an employer contribution rate of 24.2%;
7. Police officer contributions are deducted from officer salaries. The contribution rates were increased on 1 April 2012 to reflect the agreement reached between the Home Secretary and the Police Negotiating Board. Contribution rates range between 11.00% and 15.05% dependant on the range the police officer's salary falls into and whether the officer is a member of the OPPS, NPPS or PPS;
8. There are no related party transactions to the Account.

Glossary of Terms

Accounts and Audit (England) Regulations 2015 – The regulations that govern the preparation, approval and audit of statements of accounts and other accounting statements prepared in respect of the year ending 31 March 2016 onwards.

Accounting Policies – The specific principles, bases, conventions, rules and practices applied by an entity in preparing and presenting the Statement of Accounts.

Accrual – The recognition, in the correct accounting period, of income and expenditure as it is earned and incurred, rather than as cash is received or paid.

Actuarial Gains and Losses – For a defined benefit scheme, the changes in actuarial deficits or surpluses that arise because events have not coincided with the actuarial assumptions made for the last valuation (experience gains or losses) or the actuarial assumptions have changed.

Accumulated Absences Account – This account holds the liability value of accumulated accrued absences (annual leave, time owing in lieu etc) that are due to employees at the end of the financial year.

Actuarial Valuation – A valuation of assets held, an estimate of the present value of benefits to be paid and an estimate of required future contributions, by an actuary, on behalf of a pension fund.

Amortisation – The expensing of the acquisition cost minus the residual value of intangible assets in a systematic manner over their estimated useful economic lives.

Amortised Cost – The carrying amount of some financial assets and liabilities in the Balance Sheet will be written down or up via the Comprehensive Income and Expenditure Statement over the term of the instrument.

Appropriations – Amounts transferred to or from revenue or capital reserves.

Asset – An item owned by the PCC, which has a value, for example, land and buildings, vehicles, equipment and cash. These can be held over the long (non-current) or short (current) term.

Billing Authority – A local authority that, by statute, collects the council tax and national non-domestic rates and manages the Collection Fund

Budget – A statement of the PCC's Policing Plan in financial terms for a specific financial year, which starts on 1 April and ends on 31 March. A budget is prepared and approved by the PCC before the start of each financial year.

Capital Adjustment Account – An account that manages the timing differences between the amounts that have been set aside for capital expenditure, which are not aligned with the charges made for assets such as depreciation, revaluation and impairment, along with the amortisation of intangible assets.

Glossary of Terms

Capital Expenditure – Expenditure on new assets or on the enhancement of existing assets so as to prolong their life or enhance market value.

Capital Financing Charges – The repayment of loans and interest for capital projects.

Capital Grant – A grant from central government used to finance specific schemes in the capital programme.

Capital Programme – The plan of capital projects and future spending on purchasing land, buildings, vehicles, IT and equipment.

Capital Receipts – The proceeds from the sale of an asset, which may be used to finance capital expenditure or to repay outstanding loan debt.

Cash – Cash in hand and held at the bank in on-demand deposits.

Cash Equivalents – Short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

Cash Flows – Inflows and outflows of cash and cash equivalents.

Chief Constable – Chief Constable is the rank used by the chief police officer of a territorial police force, who has overall responsibility for the day to day operational direction and control of the Force. The Chief Constable has ultimate statutory responsibility for maintaining the Queen's peace.

CIPFA – The Chartered Institute of Public Finance and Accountancy is the body that oversees financial standards and financial reporting in public organisations. It is also the professional body for accountants working in the public services.

Code of Practice on Local Authority Accounting in the United Kingdom (The Code) – The Code is based on approved accounting standards issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Standards Committee, except where these are inconsistent with specific statutory requirements. The Code specifies the principles and practices, sets out the accounting requirements for local authorities and is based on International Financial Reporting Standards (IFRS).

Collection Fund Adjustment Account – The account that manages the differences arising from the recognition of council tax income as it falls due from taxpayers compared to the statutory arrangements for receiving amounts from the billing authorities.

Comprehensive Income and Expenditure Statement - The total of income less expenditure, including other comprehensive income and expenditure items, presented in the CIES and prepared in accordance with IFRS as set out in the Code.

Contingency – A sum of money set aside to meet unforeseen expenditure or a liability.

Corporation Sole – this a legal entity consisting of a single incorporated office, occupied by a sole person. This allows corporations to pass from one office holder to the next successor-in-office, giving the positions legal continuity with subsequent office holders having identical powers to their predecessors.

Glossary of Terms

Council Tax – The local tax levied on householders, based on the relative market values of property, which helps to fund local services including the police.

Creditors – Individuals or organisations to which the Chief Constable owes money at the end of the financial year.

Current Assets – These are assets which can either be converted to cash or used to pay current liabilities within 12 months. Typical current assets include cash, cash equivalents, short-term investments, debtors and stock.

Current Liabilities – These are liabilities that are to be settled within 12 months. Typical current liabilities include creditors and loan payments due within 12 months.

Current Service Costs (Pensions) – The increase in the present value of a defined benefit scheme's liabilities expected to arise from the employees' service in the current period.

Curtailment Costs – Costs that arise when many employees transfer out of the pension scheme at the same time, such as when an organisation transfers its members to another scheme. The cost represents the value of the pensions rights accrued by the transferring staff.

Debtors – Individuals or organisations who owe the Chief Constable money at the end of the financial year.

Defined Benefit Scheme – A pension scheme which defines the benefits paid to individuals independently of the contributions payable and the benefits are not directly related to the investments of the scheme.

Depreciation – An annual charge to reflect the extent to which an asset has been worn or consumed during the financial year, which is charged to the Comprehensive Income and Expenditure Statement.

Disclosure – Information that must be shown in the accounts under the CIPFA Code of Practice.

Discretionary Benefits – Retirement benefits which the employer has no legal, contractual or constructive obligation to award and which are awarded under the Chief Constable's discretionary powers.

Earmarked Reserves – Monies set aside that are intended to be used for a specific purpose and held in the Balance Sheet.

Exit Packages – Payments such as redundancy payments, either voluntary or compulsory, or early retirement payments made to employees leaving the Group before their due retirement dates.

Fair Value – The amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Financial Instruments – The borrowings and investments disclosed in the Balance Sheet, consisting of loans and investments.

Glossary of Terms

Finance Leases and Operating Leases – A Finance lease transfers substantially all of the risks and rewards of ownership of a non-current asset to the lessee. If these leases are used, the assets acquired have to be included within the non-current assets in the balance sheet at the market value of the asset involved. With an operating lease, the ownership of the asset remains with the leasing company and an annual rent is charged to the revenue account.

Financial Reporting Standards (FRS) – Recommendations on the treatment of certain items within the accounts.

Financing Activities – Activities that result in changes in the size and composition of the principal, received from or repaid to external providers of finance.

Financial Management Code of Practice for the Police Services of England and Wales 2012 – The Financial Management Code of Practice provides clarity around the financial governance arrangements within the police service in England and Wales, and reflects the fact that the police service has a key statutory duty to secure value for money in the use of public funds.

Financial Year – The period of twelve months for the accounts, from 1 April to 31 March.

General Fund – The main account which income is received into and expenditure is paid from.

General Reserves – Funds set aside to be used in the future.

Government Grants – Assistance by government and inter-government agencies and similar bodies, whether local, national or international, in the form of cash or transfers of assets to the PCC in return for past or future compliance with certain conditions relating to the activities of the PCC.

Gross Spending – The costs of providing services before allowing for government grants and other income.

Group Accounts – The financial statements that combine the accounts for the PCC and the Chief Constable, that show the performance of the Group as if it was a single entity.

Home Office Grant (Pensions) – If there is insufficient money in the Pension Fund Account to meet all expenditure commitments in any particular year, the Home Office will fund the deficit by way of a grant.

Impairment – The amount by which the recoverable value of an asset falls below its carrying (or book) value.

Intangible Asset – A non-physical non-current asset, e.g. computer software.

Interest Income – The money earned from investing activities, typically the investment of surplus cash.

International Accounting Standards Board (IASB) – This is the independent, accounting standard-setting body, which is responsible for developing International Financial Reporting Standards and promoting the use and application of these standards.

Glossary of Terms

International Financial Reporting Standards (IFRS) & International Accounting Standards (IAS) – The accounting rules and principles, adopted by the International Accounting Standards Board, on which the Statement of Accounts is based. The Code is prepared in accordance with the IFRS.

Investing Activities – The buying and selling of long-term assets and investments that are not cash equivalents.

Jointly Controlled Operations - Activities undertaken by the Chief Constable and/or the PCC that are jointly controlled with other venturers. The jointly controlled operation does not give rise to the creation of a separate entity.

Liabilities – Amounts that are due to be settled by the PCC in the future, which includes Current Liabilities and Long Term Liabilities.

Major Precepting Authority – Authorities that make a precept on the billing authority's collection fund, e.g. County Councils and Police and Crime Commissioners.

Materiality – Omissions or misstatements of items are material if they could, individually or collectively, influence the decisions or assessments of users made on the basis of financial statements. Materiality depends on the nature or size of the item omission or misstatement judged in the surrounding circumstances.

Minimum Revenue Provision (MRP) – The statutory minimum amount that is required to be set aside on an annual basis as a provision to repay debt.

National Non-Domestic Rates (NNDR) – The national non-domestic rate in the pound is the same for all non-domestic rate payers and is set annually by the government. Income from non-domestic rates goes into a central government pool that is then distributed according to resident population.

Net Book Value – The amount at which non-current assets are included in the balance sheet, i.e. their historical cost or current values less the cumulative amounts provided for depreciation.

Non-Current Assets (Fixed Assets) – Tangible assets, such as buildings and equipment are assets that yield benefits for a period of more than one year. Intangible non-current assets have no physical substance but provide a benefit for more than one year, e.g. computer software.

Notes to the Accounts – The notes contain information in addition to that presented in the Movement in Reserves Statement, Comprehensive Income and Expenditure Statement, Balance Sheet and Cash Flow Statement.

Operating Activities – The activities of the entity that are its normal activities, excluding its investment and financing activities.

Outturn – The actual amount spent in the financial year.

Glossary of Terms

Past Service Cost – For a defined benefit scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods but arising in the current period as a result of the introduction of, or improvement to retirement benefits.

Payments in Advance – These represent payments made prior to 31 March for supplies and services received on or after 1 April.

Pension Fund – The fund that makes pension payments following the retirement of its participants.

Pensions Expected Rate of Return on Assets – For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

Pensions Interest Costs – For a defined benefit scheme, the expected increase during the period at the present value of the scheme liabilities because the benefits are one period closer to settlement.

Pensions Reserve – A non-cashable reserve used to reconcile payments made for the year to various statutory pension schemes and the net change in the recognised liability under IAS19 for the same period.

Police and Crime Commissioner (the PCC) – an elected representative charged with securing efficient and effective policing of a police area in England and Wales. PCCs replaced the now abolished Police Authorities from 2012.

Police Act 1996 – An Act of the Parliament of the United Kingdom which defined the current police areas in England and Wales, constituted the Police Authorities for those areas (now superseded by PCCs), and set out the relationship between the Home Secretary and the English and Welsh territorial police forces.

Police and Crime Panel – The Police Reform and Social Responsibility Act 2011 established Police and Crime Panels within each force area in England and Wales. The panel is responsible for scrutinising PCCs' decisions; they also review the Police and Crime Plan and have a right of veto over the precept.

Police and Crime Plan - The Police Reform and Social Responsibility Act 2011 introduces a duty on the PCC to prepare a Police and Crime Plan which should determine, direct and communicate their priorities during their period in office.

Police Fund Balance - The Police Fund Balance is the statutory fund into which all the receipts of the PCC are required to be paid and out of which all liabilities of the PCC are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the Police Fund, which is not necessarily in accordance with proper accounting practice. The Police Fund Balance therefore summarises the resources that the PCC is statutorily empowered to spend on his services or on capital investment.

Police Principal Grant – This is part of the total specific government grant support for police services. The amount is determined annually by the Home Office on a formula basis.

Glossary of Terms

Police Reform and Social Responsibility Act 2011 (The Act) – this is an Act of the Parliament of the United Kingdom. It transfers the control of police forces from Police Authorities to elected PCCs. The first PCC elections were held in November 2012, and will be held every four years thereafter.

Precept – The amount of council tax that the PCC, as a major precepting authority, has instructed the billing authorities to collect and pay over in order to finance its net expenditure.

Provisions – The amounts set aside to provide for liabilities that are likely to be incurred, but the exact amount and the date on which it will arise is uncertain.

Public Works Loan Board (PWLB) – A statutory body operating within the United Kingdom Debt Management Office, an Executive Agency of HM Treasury, which provides long-term loans to local authorities at interest rates only slightly higher than those at which the government itself can borrow.

Receipts in Advance – These represent income received prior to 31 March for supplies and services provided by the Authority on or after 1 April.

Reimbursements – Payments received for the work carried out for other public organisations, e.g. the government.

Related Parties – Bodies or individuals that have the potential to control or influence the Chief Constable and/or the PCC.

Reserves – Monies set aside by the PCC that do not fall within the definition of provisions. Reserves held for specific purposes are known as earmarked reserves.

Retirement Benefits – All forms of consideration given by an employer in exchange for services rendered by employees that are payable after the completion of employment.

Revaluation Reserve – The Reserve records the accumulated gains on the non-current assets held by the PCC arising from increases in value. It is charged with the part of the depreciation charge for the asset which relates to the revaluation. Any balance on this account is written back to the Capital Adjustment Account upon disposal of the asset.

Revenue Expenditure and Income – Day to day expenses mainly salaries, general running expenses and debt charges. These costs are met from the Council Tax, Government Grants, fees and charges.

Revenue Expenditure Funded from Capital Under Statute (REFCUS) – Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset. These costs may be charged as expenditure to the relevant service in the CIES in the year.

Revenue Support Grant (RSG) – General Government Grant support towards the PCC's expenditure.

Scheme Liabilities (Pensions) – The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities are measured using the projected unit method to reflect the benefits that are committed to be provided for service up to the valuation date.

Glossary of Terms

Scheme of Delegation and Consent, Financial and Contract Regulations 2012/13 – The Scheme of Delegation and Consent details the key roles of the PCC and those functions that they designate to the Chief Executive, Treasurer, the Chief Constable and, if appointed, the Deputy PCC. The scheme also provides a framework to ensure that business is carried out efficiently, ensuring that decisions are not unnecessarily delayed. The Financial and Contract Regulations establish overarching financial responsibilities; confer duties, rights and powers upon the PCC, the Chief Constable and their officers providing clarity about the financial accountability of groups or individuals. They apply to every member and officer of the service and anyone acting on their behalf.

Specific Grant – Payments from the government to cover Local Authority spending on a particular service or project. Specific grants are usually a fixed percentage of the cost of a service or project and have strict rules detailing eligible expenditure.

(Strategic) Alliance – The alliance formed by Warwickshire Police and West Mercia Police to use their combined resources to deliver all policing services to the people and communities of Herefordshire, Shropshire, Telford & Wrekin, Warwickshire and Worcestershire.

Surplus or Deficit on the Provision of Services – The total of income less expenditure, excluding the components of Other Comprehensive Income and Expenditure. Presented in the Comprehensive Income and Expenditure Statement in accordance with IFRS as set out in the Code.

Tangible Non-current Assets – Physical non-current assets, e.g. land, buildings, vehicles and equipment held for a period of over one year.

Taxation and Non-Specific Grant Income – Council Tax and all grants and contributions recognised in the financial year.

Telling the Story – CIPFA's review of the presentation of Public Sector financial statements. The CIES now reflects the way that organisation's operate and manage services.

Transfer Value – A sum of money transferred between pension schemes to provide an individual with entitlement to benefits under the pension scheme to which the transfer is made.

APPENDIX 1

Chief Constable of Warwickshire Police Annual Governance Statement 2019-20
