1.0 POLICY OUTLINE

Warwickshire Police and the respective Offices of the Police and Crime Commissioner (OPCC) are committed to protecting the health, safety and welfare of its workforce.

There are organisational benefits of promoting the psychological well being of the workforce in achieving performance objectives.

The Forces and OPCCs recognise that workplace stress is an important health and safety issue and acknowledge the importance of taking all practical steps to identify and reduce occupational stress.

2.0 PURPOSE OF POLICY

The aim of this policy is to maintain and improve the well being of the workforce. Warwickshire Police and the OPCCs have a duty of care to reduce, where possible, the risk to the workforce of stress caused or aggravated by organisational factors.

2.1 Health & Safety Executive (HSE) Management Standards

Warwickshire Police and the OPCCs will aim to reduce work related stress by using the HSE Management Standards approach.

Identify the stress risk factors

Warwickshire Police and the OPCCs will identify stress risk factors, using 6 areas of the HSE Management Standards:

- **Demands:** workload, work patterns, and the work environment
- **Control:** How much say the person has in the way they do their work
- **Support:** encouragement, sponsorship and resources provided by the organisation, line management and colleagues
- **Relationships:** promoting positive working to avoid conflict and dealing with unacceptable behaviour
- **Role:** Whether people understand their role within the organisation and whether the organisation ensures that they do not have conflicting roles
- **Change:** How organisational change (large or small) is managed and communicated in the organisation.

Consider who might be harmed and how

Data will be gathered from a variety of sources to enable the identification of areas of good performance but to also identify potential risks.

Evaluate the risks

Data and information will be evaluated and potential risks identified.

Develop and Implement recommendations

Action Plans will be formulated to address any potential risks identified.

Monitor and Review

The plans will be monitored and reviewed to assess their effectiveness and implement further measures if required.
